If shoes are causing such problems the solution is obvious take them off In *The Barefoot Book* Howell describes the best and healthiest kinds of shoes to wear for the times we must wear shoes For the rest of the time he suggests we go barefoot and gives tips for getting started on a more barefoot lifestyle He suggests ways to ease into going barefoot more often defines the best conditions and situations for going barefoot identifies the risks and provides ways to explain to people why you're going barefoot particularly if you venture into public areas where shoes are expected Howell would like us to experience healthier feet and fewer trips to the podiatrist's office to develop feet that are strong flexible and comfortable After learning about the dangers of chronic shoe wearing and the health benefits of going barefoot readers will likely agree 500 HESI A2
