DeLucia-Waack, 2004. *The Handbook of Group Counseling and Psychotherapy* is a comprehensive reference guide for group practitioners and researchers alike. Each chapter reviews the literature and current research as well as suggestions for practice in the psycho-educational arena, counselling, and therapy groups. Appendices include the Association for Specialists in Group Work Training Standards, Best Practice Standards, and Principles for Diversity Competent Group Workers. The Handbook is divided into seven sections: Current and Historical Perspectives on the Field of Group Counseling and Psychotherapy; reviews and analyzes the many contributions and contributors that have made group counselling and psychotherapy a vital and potent treatment method. The chapter outlines review articles spanning four decades and outlines the evolution of group themes over the last 100 years. Best Practices in Group Counseling and Psychotherapy uses research, theory, and group counseling experience to provide group leaders and researchers with the most current and best practices in conducting group counseling and psychotherapy. Multicultural Groups follows the ASGW Principles for Diversity Competent Group Workers and is intended to provide group leaders with essential information about different cultural groups and their world views, perceptions of groups, naturalistic healing methods, suggested group interventions, and implications for groups. Chapters cover Native Americans, Latinos, Asians, and African Americans, disabled persons, and gender and sexuality groups. *Groups Across Settings* includes examples of psycho-educational counselling and psychotherapy groups in a variety of settings. This section presents readers with theoretical and empirical support for group work in such settings as the Veterans Administration, system, university counselling centers, and more. *Groups Across the Lifespan* consists of chapters across many age groups.
