Pros of Adopting

Most rescue pets are already vetted and housetrained

The shelter already has adequate information about the pet's personality and temperament

Many rescue groups will take a pet back if they're not a good match for you

The cost of adoption is significantly lower than the cost of buying from a breeder

There's nothing quite like the satisfaction of giving a furry friend a second chance at a happy home

Cons of Adopting

There's no guarantee how the animal may behave in a new environment

Finding a specific breed can be a challenge

Adopting may not happen right away, but don't get discouraged

Adopting requires a lot of documentation and paperwork

A lot of rescue dogs have special needs that you need to be prepared to contend with

Adoption requests can be denied for various reasons
