Adult Taboo English Edition:

Crossing Cultures Judith Oster, 2003 In this important new study Judith Oster looks at the literature of Chinese Americans and Jewish Americans in relation to each other Examining what is most at issue for both groups as they live between two cultures languages and environments Oster focuses on the struggles of protagonists to form identities that are necessarily bicultural and always in process Recognizing what poststructuralism has demonstrated regarding the instability of the subject and the impossibility of a unitary identity Oster contends that the writers of these works are attempting to shore up the fragments to construct through their texts some sort of wholeness and to answer at least partially the questions Who am I and Where do I belong Book Jacket

Man of Taste Rob King, 2025-04-02 Radley Metzger was one of the foremost directors of adult film in America with credits including softcore titles like *The Lickerish Quartet* and the hardcore classic *The Opening of Misty Beethoven* After getting his start making arthouse trailers for Janus Films Metzger would go on to become among the most feted directors of the porno chic era of the 1970s working under the pseudonym Henry Paris In the process he produced a body of work that exposed the porous boundaries separating art cinema from adult film softcore from hardcore and good taste from bad Rob King uses Metzger's work to explore what taste means and how it works tracing the evolution of the adult film industry and the changing frontiers of cultural acceptability *Man of Taste* spans Metzger's entire life his early years in Manhattan's Washington Heights neighborhood his attempt to bring arthouse aesthetics to adult film in the 1960s his turn to pseudonymously directed hardcore movies in the 1970s and his final years which included making videos on homeopathic medicine Metzger's career King argues sheds light on how the distinction between the erotic and the pornographic is drawn and it offers an uncanny reflection of the ways American film culture transformed during these decades Lavishly illustrated with rare photos and publicity images this book paints a vivid picture of a filmmaker who channeled his artistic aspirations into some of the most disreputable movie genres of his day

The Systemic Nature of the Economic Crisis Arturo Hermann, 2015-03-27 The most prominent aspect of the current financial crisis is its systemic character which manifests itself in high levels of inequality rampant unemployment economic and social insecurity and environmental decay This book explores the potential of a pluralistic and interdisciplinary approach for a deeper understanding of the manifold aspects of the economic crisis This book examines the potential of a number of contributions from heterodox economics and psychoanalysis in providing a deeper understanding of these problems The book analyses some of the most debated aspects of the concepts of market democracy and socialism and explores the role of structural ties between economic social and psychological aspects of collective life It also addresses the main economic aspects of the crisis and pays particular attention to a number of structural imbalances and to the psychological interpretation of these phenomena By drawing together approaches from heterodox economics and psychoanalysis this book adopts a pluralist and interdisciplinary approach to the study of these phenomena and manages to overcome the fragmentation so often present in

social sciences **Pragmatic Translation Studies** Fang Mengzhi, 2025-03-27 This book aims to strengthen the link between applied translation theory and practice by elucidating translation principles strategies and techniques within a unified theoretical framework The author encapsulates the development of translation studies and its terminological system into a tripartite structure that unifies the study of translation through macro meso and micro approaches The macro approach examines trends in translation studies the meso approach focuses on translation strategies and the micro approach explores the rationale and characteristics of translation skills Meticulously structured and clear this book offers both ideological guidance and methodological explication It combines theoretical exposition with professional analysis providing a profound and engaging perspective that bridges theory and practice This title will serve as an invaluable reference for translation practitioners researchers and students of translation studies and interpreting theory and practice **The Routledge Handbook of Translation, Interpreting and Bilingualism** Aline Ferreira, John W. Schwieter, 2023-01-31 Translation and interpreting can be seen as two special sub types of bilingual communication The field of bilingualism from developmental cognitive and neuroscientific perspectives is highly relevant to Translation and Interpreting Studies The Routledge Handbook of Translation Interpreting and Bilingualism is the first handbook to bring together the related yet disconnected fields of bilingualism and translation and interpreting studies Edited by leading scholars and authored by a wide range of established authorities from around the world the Handbook is divided into six parts and encompasses theories and method the development of translator and interpreter competence and cognitive neuroscientific and social aspects This is the essential guide to bilingualism for advanced students and researchers of Translation and Interpreting studies and key reading on translation and interpreting for those studying and researching bilingualism Audiovisual Translation Jorge Díaz Cintas, Josélia Neves, 2015-06-18 This book is an edited collection of papers dealing with some of the main issues in audiovisual translation AVT today As the title indicates it proposes to take stock of where the discipline stands and to speak of the opportunities and challenges that an ever changing environment poses to those involved in the field whether in teaching researching or working professionally within the industry The selection of papers provides a detailed overview of the multidisciplinary richness that ch Remorse and Reparation Murray Cox, 1999 Remorse or rather the lack of it frequently features in banner headlines But there is little systematic study of this important interdisciplinary topic whose relevance has extensive social ramifications The complex relationship between remorse shame guilt and attempts at reparation are discussed in this authoritative work This volume is the first comprehensive attempt to bring together both forensic clinicians and those working within the criminal justice system New Life Familiar though they are in literature religion and philosophy the phenomena of remorse and reparation are rarely explored in either the theory or practice of forensic psychotherapy This book begins to address those omissions dealing with clinical and legal questions and ranging widely over political philosophical sociological and artistic perspectives Remorse and Reparation is very much the expression

of Murray Cox's particular and unique talent. He would have been proud of this his last book even though he did not live long enough to supervise its publication. Murray has brought together authors from different disciplines to convey a myriad of views. Although occasionally contradictory, the impacts of original insights presented from several different perspectives can be stunning. This book will be a valuable addition to the literature of any forensic institution. *British Journal of Psychiatry*. This is a book all magistrates, probation officers and QPMs should read. It consists of 15 short and mostly readable essays looking at a little considered aspect of human experience from medical, legal, sociological and philosophical points of view. The case studies quoted are very much to the point. Two essays particularly impressed me. David Tidmarsh, now of the Parole Board, was formerly on the staff of Broadmoor Hospital. He draws attention to the lack of reference to remorse in the Board's remit which is concerned only with risk. John Harding of the Inner London Probation Service quotes examples including two well known ones from Barlinnie where moral reformation has occurred. *Newsletter of Quakers in Criminal Justice*. Remorse or rather the lack of it frequently features in banner headlines. But there is little systematic study of this important interdisciplinary topic whose relevance has extensive social ramifications. Should a show of remorse by an offender be taken into account in sentencing? Is there a correlation between the experience of remorse and a diminished likelihood of re-offending? And is there a correlation between the experience and the expression of remorse? Such questions and the complex relationship between remorse, shame, guilt and attempts at reparation are discussed in this authoritative work. This volume is the first comprehensive attempt to bring together both forensic clinicians and those working within the criminal justice system. There is also a series of chapters by those writing from the adjacent complementary disciplines of moral philosophy, classics, Shakespeare studies, sociology and anthropology.

Keywords for Children's Literature, Second Edition Philip Nel, Lissa Paul, Nina Christensen, 2021-01-12. Introduces key terms, global concepts, debates and histories for Children's Literature in an updated edition. Over the past decade there has been a proliferation of exciting new work across many areas of children's literature and culture. Mapping this vibrant scholarship, the Second Edition of *Keywords for Children's Literature* presents original essays on essential terms and concepts in the field. Covering ideas from Aesthetics to Voice, an impressive multidisciplinary cast of scholars explores and expands on the vocabulary central to the study of children's literature. The second edition of this *Keywords* volume goes beyond disciplinary and national boundaries. Across fifty-nine print essays and nineteen online essays, it includes contributors from twelve countries and an international advisory board from over a dozen more. The fully revised and updated selection of critical writing, more than half of the essays are new to this edition, reflects an intentionally multinational perspective, taking into account non-English traditions and what childhood looks like in an age of globalization. All authors trace their keyword's uses and meanings from translation to poetry, taboo to diversity and trauma to nostalgia. The book's scope, clarity and interdisciplinary play between concepts make this new edition of *Keywords for Children's Literature* essential reading for scholars and students alike.
