

Covering all the essential identification features, including many not dealt with in standard field guides, the *Advanced Bird ID Guide* is the ultimate portable reference to every plumage of all 1,300 bird species and subspecies ever recorded in Britain, Europe, North Africa and the Middle East. These range from common residents and migrants to extremely rare vagrants, from the humble House Sparrow to the mega-rare Tufted Puffin.

The guide lists every key character of every distinctive plumage, be it due to age, sex, geographical variation or colour morph, making it an essential reference for every serious birdwatcher. Handy symbols highlight key features for each plumage, aiding quick identification in the field.

Author Nils van Duivendijk is a key contributor to *Dutch Birding*. This book is published in association with the renowned journal *British Birds*, which has been at the forefront of British ornithology for more than 100 years.

"So groundbreaking is it in both concept and ease of use that it is bound to become one of the classic works in birdwatching literature." *Sunday Express*

"This is an identification guide that you cannot live without. I recommend that you buy two copies: one for the shelf and one for the field. It really is that good." *BirdGuides*
