Advanced English Language Communication Skills Lab Manual:

Advanced Communication Skills Laboratory Manual D. Sudha Rani, 2010-09 Advanced Communication Skills Laboratory Manual is the sequel to the acclaimed *A Manual for English Language Laboratories* and addresses the specific needs of students and teachers in technical and other professional courses. It focuses on reading and writing skills and integrates these with speaking, listening and other intra and inter personal skills. Besides imparting communication and soft skills, the three tier evaluation exercises (self evaluation, peer group evaluation and teacher evaluation) will identify the students' communication skills and help in developing skill sets. ENGLISH LANGUAGE LABORATORIES KONAR, NIRA, 2011-07-30

Today acquiring English language skills has become so essential especially for those who are looking for new jobs in reputed organizations as well as for the practising professionals. Many engineering students even though they have adequate knowledge of their subject are unable to express themselves well in English. Taking this into account, engineering colleges/institutes have introduced exclusive English Language Laboratories where students are drilled in the practical aspects of the English language. This compact and comprehensive book is a step by step practical guide to students, telling them how to prepare technical reports and how to acquire the basic communication skills (listening, speaking, reading and writing). The book deals with conversation, situational dialogues and role plays and Group Discussions (GDs). It also gives detailed discussion about Interviews (step by step preparation, practical and psychological preparation, the dos and don'ts for interview, besides dealing with different kinds of interviews: telephonic, videoconferencing and others). In addition, the text stresses the importance of researching the organization and salary negotiations. Finally, the book shows the students how to make powerpoint presentations (PPTs), the structure of presentation and using audio visuals. This activity based, skill oriented learner centred book is designed according to the WBUT syllabus on Technical Report Writing and Language Laboratory Practice for the B Tech students. However, it would be equally useful for B Tech B E students across the country.

DISTINGUISHING FEATURES A practical and student friendly text, the stress being on the functional aspects of the language and various activities for acquiring the language. Gives the Methodology of conducting activities such as GDs, Interviews and Presentation. Provides model GD topics and the step by step process of making PPTs. Clearly spells out all the details right from preparing a good job application, researching the company including its financial health to preparing the job portfolio to wearing the proper dress, handling questions and negotiating salary. Provides an extensive list of probable questions along with their answers to prepare students for mock interviews. Also gives well crafted questions at the end of each lesson. *Advanced Communication Skills Laboratory Manual* D. Sudha Rani, 2010
