

The background of the cover is a detailed architectural drawing of a floor plan, showing various rooms, corridors, and furniture. Overlaid on this are several drafting tools: a large set square in the upper right, a compass in the lower left, and a red pencil in the lower right. A blue banner on the left side contains the title and authors' names. A blue oval logo in the top right corner contains the publisher's name.

Advanced Graphic Communications and Media Technologies Pengfei Zhao, Yun Ouyang, Min Xu, Li Yang, Yujie Ouyang, 2017-03-21 This book includes a selection of reviewed papers presented at the 2016 China Academic Conference on Printing Packaging Engineering Media Technology held on November 25-27 2016 in Xi'an, China. The conference was jointly organized by China Academy of Printing Technology, Xi'an University of Technology and Stuttgart Media University of Germany. The proceedings cover the recent outcomes on color science and technology, image processing technology, digital media technology, digital process management technology in packaging and packaging etc. They will be of interest to university researchers, R & D engineers and graduate students in graphic communications, packaging, color science, image science, material science, computer science, digital media and network technology fields. *International Handbook of Technology Education*, 2006-01-01 This first volume in the International Technology Education Series offers a unique worldwide collection of national surveys into the developments of Technology Education in the past two decades. For twenty-two countries from five continents, the major changes of this school subject are described by experts that have been involved in these changes for many years themselves. The studies deal with national curricula, teacher education programs, educational research into effects of Technology Education and practical issues at classroom level. After the 15th International Pupils' Attitude Towards Technology conference which was held in Haarlem in April 2005, a distinguished group of scholars from the area of Technology Education decided that after 20 years it was time to give account of the state of the art in this area. This book should be of interest to students, teachers, researchers and policy makers who are involved in technology education.
