Smart Science Tricks Martin Gardner, 2004 Relying on the remarkable forces of science and nature this material offers great ideas for performing illusions magic tricks and experiments

Science Tricks and Magic for Young People George Barr, 1987-01-01 Dozens of riddles and puzzles working with air pressure liquids light motion more

The Surfing Scientist Ruben Meerman, 2010-07-01 Find out how to make ordinary stuff do extraordinary things with Ruben Meerman the Surfing Scientist Ages 7 12 Want to learn how to stick a potato through a straw How you can make ice stick to a piece of cotton thread Stick two books together without glue Pick up a jar of rice with a pencil Impress your mates too easy the Surfing Scientist can show you how Using only household ingredients and with nothing tricky for kids to buy this book is perfect for every budding scientist or surfer And it's packed with facts knowledge and trivia that interests and fascinates kids and with photographs of each experiment to make the whole process easy but most of all fun Perfect for curious kids amazing and great fun every cool science trick in the book Dr Karl Kruszelnicki Ages 7 12

Fire Bubbles and Exploding Toothpaste Steve Spangler, 2012 Parents and children who enjoyed the entertaining science in Naked Eggs Primarily uses household items The author transforms the ordinary into amazing as he makes everyday items ooze bubble fizz bounce and smoke These easy and inexpensive experiments reveal the secrets of science in unexpected ways Abundant four color illustrations Over two hundred photographs accompany the step by step instructions along with simple explanations that uncover the how to and why for each activity Created by an established science celebrity The author has earned his credentials as a science author teacher professional speaker toy designer and an Emmy Award winning television personality His first volume of experiments Naked Eggs and Flying Potatoes enjoyed retail success and was featured on The Ellen DeGeneres Show He has established a powerful commercial online presence and has spawned more than 1 000 YouTube videos

47 Easy-to-Do Classic Science Experiments Eugene F. Provenzo, Asterie Baker Provenzo, 2012-07-31 Here is a highly motivating book for grade school students that will introduce them to many of the world's most popular and historically significant scientific experiments They'll learn about gravity simply by following the acrobatic antics of an ordinary coin By trying to blow an egg out of a cup they'll discover the principles of air pressure Dancing soap bubbles will help them understand the effects of

static electricity and by dropping quarters into a full glass of water without causing it to overflow they'll study the effects of surface tension. These and over 40 other experiments have been carefully selected by noted educators Eugene and Asterie Baker Provenzo to familiarize children with classic science experiments involving optics, inertia, air pressure, magnetism, sound, topology, light, density, vibration, prisms, elasticity, gases, vacuum, perspective, geometry, centrifugal force, buoyancy, color, and much more. Some experiments such as the optical Newton's Rings are hundreds of years old. Still others like the straw lever test are based on Greek experiments with leverage and the center of gravity first carried out thousands of years ago. Easy to follow instructions and illustrations show youngsters how to perform each experiment, most of which are prefaced with historical background, a list of necessary materials, and an explanation of key terms. Almost all experiments can be carried out with common household items: tissue paper, scissors, tapes, rubber balloons, pens, pencils, etc., and can be worked at home or in the classroom to demonstrate specific scientific principles or to supplement a science curriculum unit. Sources for all historical illustrations given in the text are listed at the end of the book.

Great Science Projects DK, 2023-02-02 Explore Science, Technology, Engineering, and Maths with this jam-packed collection of fun-filled experiments you can do at home. Get immersed in exciting STEM activities that will inspire every budding home scientist, technology fan, young engineer, and mathematician. Witness your very own erupting volcano, blow sky-high. Build a sturdy sandcastle and reveal the incredible technology of construction materials. Design a wind-up car and discover your inner engineer and test your knowledge of maths by making a marble run. *Great Science Projects* features an enormous collection of incredible, tried and tested STEM experiments. With over 50 exciting experiments, children aged 9 will love getting involved in activities like making a wormery, constructing a spaghetti tower, mixing gels to make air fresheners, creating mathematically precise shadow puppets, and freezing icy orbs. This exciting book of experiments for children includes 50 fun-packed educational experiments to get kids inspired by the STEM fields: Science, Technology, Engineering, and Maths. A huge variety of activities using easily sourced materials and ranging from quick and easy to more challenging to suit different ages, interests, and attention spans. Big beautiful introductory shots for each experiment will engage and excite young readers. Easy to understand, step-by-step instructions throughout, accompanied by clear, helpful photography. *Great Science Projects* is a fantastic way for teachers and parents to help inspire and develop their kids' interest in STEM subjects. Featuring beautiful photography and engaging illustrations, accompanied by 'How it works' and 'Real world' explanations, young readers can begin to understand the principles of STEM behind each and every step of an experiment.
