Vietnam at a Crossroads Claire Hollweg,Tanya Smith,Daria Taglioni,2017-03-15 Vietnam is at a crossroads It can grow as an export platform for GVCs specializing in low value added assembly functions with industrialization occurring in enclaves with little connection to the broader economy or society or it can leverage the current wave of growth enabled and accelerated by its successful participation in GVCs to diversify and move up the chain into higher value added functions Success will require Vietnam s policymakers to view the processes of development differently and to take new realities of the global economy more fully into account The purpose of this volume is to support Vietnam s path to economic prosperity by identifying policies and targeted interventions that will drive development through leveraging GVC participation that take major shifts in trade policy and rapid technological advances in ICT into account The volume is based on a compilation of studies completed by World Bank staff and external consultants in 2015 supporting the Enabling Economic Modernization and Private Sector Development chapter of the Vietnam 2035 report The objective of these studies was to diagnose Vietnam s current participation in GVCs visualize where Vietnam could be by 2035 in the context of a changing global environment and identify the policy actions needed to get there The studies also supported topics related more broadly to export competitiveness including firm level productivity services and connectivity It then identifies targeted strategies and policy interventions that will help overcome challenges minimize risks and maximize opportunities Readers will gain a strong understanding of Vietnam s current and potential engagement with GVCs and will learn about strategic GVC policy tools that can help developing countries achieve economic prosperity in the context of compressed development Fulfillment Alec MacGillis,2021-09-28 An award winning journalist investigates Amazon s impact on the wealth and poverty of towns and cities across the United States In 1937 the famed writer and activist Upton Sinclair published a novel bearing the subtitle A Story of Ford America He blasted the callousness of a company worth a billion dollars that underpaid its workers while forcing them to engage in repetitive and sometimes dangerous assembly line labour Eighty three years later the market capitalisation of Amazon com has exceeded one trillion dollars while the value of the Ford Motor Company hovers around

thirty billion We have it seems entered the age of one click America and as the coronavirus makes Americans more dependent on online shopping its sway will only intensify Alec MacGillis s Fulfillment is not another inside account or expos of our most conspicuously dominant company Rather it is a literary investigation of the America that falls within that company s growing shadow As MacGillis shows Amazon s sprawling network of delivery hubs data centres and corporate campuses epitomises a land where winner and loser cities and regions are drifting steadily apart the civic fabric is unravelling and work has become increasingly rudimentary and isolated Ranging across the country MacGillis tells the stories of those who ve thrived and struggled to thrive in this rapidly changing environment In Seattle high paid workers in new office towers displace a historic black neighbourhood In suburban Virginia homeowners try to protect their neighbourhood from the environmental impact of a new data centre Meanwhile in El Paso small office supply firms seek to weather Amazon s takeover of government procurement and in Baltimore a warehouse supplants a fabled steel plant Fulfillment also shows how Amazon has become a force in Washington DC ushering readers through a revolving door for lobbyists and government contractors and into CEO Jeff Bezos s lavish Kalorama mansion With empathy and breadth MacGillis demonstrates the hidden human costs of the other inequality not the growing gap between rich and poor but the gap between the country s winning and losing regions The result is an intimate account of contemporary capitalism its drive to innovate its dark pitiless magic and its remaking of America with every click *Harper's*, 2010 **School Library**
