Grant Holloway, Managing Editor, *The Australian Online*. **The New Maharajahs** Claudia Cragg, 1996. Until India gained its independence from Britain in 1947, one third of the country was ruled by a lazy pampered group of 565 maharajahs or princes. They led hedonistic lives with scores of wives and concubines, palaces and jewels, and spent much of their time playing polo and tiger hunting. The late Prime Minister Indira Gandhi taxed the maharajahs almost out of existence, and few physical traces of their former glory remain. However, a new breed of commercial princes has sprung up in their place.

INDIA'S POLITICAL BLUNDERS: BLEEDING ITS BORDERS PRAHALAD RAO, 2021-05-03. This book strives to find out how the rulers of our country missed the opportunities in hand to resolve the boundaries of India with Pakistan and China. The author has used the words missed opportunities because opportunities to settle the borders were offered to the rulers of that time. But what happened instead was the wanton self-denial of those opportunities. Those errors of judgment and political mistakes cost the country heavily, both in terms of loss of lives and increasing monetary burden. What is waiting to come is difficult to predict. The author considers that the historical and legal documents of the past 200 years provide irrefutable grounds for India to reclaim the large tracts of land at the borders. The book urges the reader to think and wonder how long will India wait for this settlement. How can we silence the borders any longer when the noise has been growing louder for decades.
