Lepler, 2013-09-16 In the spring of 1837 people panicked as financial and economic uncertainty spread within and between New York New Orleans and London Although the period of panic would dramatically influence political cultural and social history those who panicked sought to erase from history their experiences of one of America s worst early financial crises The Many Panics of 1837 reconstructs this period in order to make arguments about the national boundaries of history the role of information in the economy the personal and local nature of national and international events the origins and dissemination of economic ideas and most importantly what actually happened in 1837 This riveting transatlantic cultural history based on archival research on two continents reveals how people transformed their experiences of financial crisis into the Panic of 1837 a single event that would serve as a turning point in American history and an early inspiration for business cycle theory **Perspectives** ,2006 **The Women Who Professionalized Interior Design** Peter Dedek, 2022-03-10 The Women Who Professionalized Interior Design explores the history of interior decorating and design from the late nineteenth century to the present highlighting the careers and contributions of significant American female interior designers who were instrumental in the creation of the field of residential and commercial interior design in the United States This book explores how interior design emerged as a distinct paying occupation in the nineteenth century thanks to a growing middle class and an increase in available cheap household goods following the Industrial Revolution Focusing primarily on the period from 1905 to 1960 it addresses the complex relationships among professionals in the design fields the social dynamics of designer client relationships and how class culture and family influenced their lives and careers The book emphasizes significant female interior decorators and writers on design including Candace Wheeler Elsie de Wolfe Edith Wharton Nancy McClelland Ruby Ross Wood Dorothy Draper Eleanor McMillen Brown and Sister Parish all of whom are underrepresented in the historical record relating their stories within the context of the history of design and architecture This book is an ideal and concise resource for students and faculty of interior design and women s history **Catalogue** ,1883 **Annual Report of the Trustees of the Public Library of the Town of Brookline** Public Library of Brookline, 1866 **Guide to the Study of American History** Edward Channing, 1896 **A Short History of Women's Rights** Eugene A. American Memories Joachim J. Savelsberg, Ryan D. King, 2011-09-01 In the long history of warfare and cultural and ethnic violence the twentieth century was exceptional for producing institutions charged with seeking accountability or redress for violent offenses and human rights abuses across the globe often forcing nations to confront the consequences of past atrocities The Holocaust ended with trials at Nuremberg apartheid in South Africa concluded with the Truth and Reconciliation Commission and the Gacaca courts continue to strive for closure in the wake of the Rwandan genocide Despite this global trend toward accountability American collective memory appears distinct in that it tends to glorify the nation s past celebrating triumphs while eliding darker episodes in its history In *American Memories* sociologists Joachim Savelsberg and Ryan King rigorously examine how the United States remembers its own and others atrocities and how institutional responses to such crimes including trials and tribunals may help shape memories and perhaps impede future violence *American Memories* uses historical and media accounts court records and survey research to examine a number of atrocities from the nation s past including the massacres of civilians by U S military in My Lai Vietnam and Haditha Iraq The book shows that when states initiate responses to such violence via criminal trials tribunals or reconciliation hearings they lay important groundwork for how such atrocities are viewed in the future Trials can serve to delegitimize violence even by a nation s military by creating a public record of grave offenses But the law is filtered by and must also compete with other institutions such as the media and historical texts in shaping American memory Savelsberg and King show for example how the My Lai slayings of women children and elderly men by U S soldiers have been largely eliminated from or misrepresented in American textbooks and the army s reputation survived the episode untarnished The American media nevertheless evoked the killings at My Lai in response to the murder of twenty four civilian Iraqis in Haditha during the war in Iraq Since only one conviction was obtained for the My Lai massacre and convictions for the killings in

Haditha seem increasingly unlikely Savelsberg and King argue that Haditha in the near past is now bound inextricably to My Lai in the distant past With virtually no criminal convictions and none of higher ranks for either massacre both events will continue to be misrepresented in American memory In contrast the book examines American representations of atrocities committed by foreign powers during the Balkan wars which entailed the prosecution of ranking military and political leaders The authors analyze news accounts of the war s events and show how articles based on diplomatic sources initially cast Serbian President Slobodan Milosevic in a less negative light but court based accounts increasingly portrayed Milosevic as a criminal solidifying his image for the public record American Memories provocatively suggests that a nation s memories don t just develop as a rejoinder to events they are largely shaped by institutions In the wake of atrocities how a state responds has an enduring effect and provides a moral framework for whether and how we remember violent transgressions Savelsberg and King deftly show that such responses can be instructive for how to deal with large scale violence in the future and hopefully how to deter it A Volume in the American Sociological Association s Rose Series in Sociology Proceedings (American Oriental Society). 1874-1893 ,1852 *Money and Banking Illustrated by American History* Horace White,1896

48 Liberal Lies About American History Larry Schweikart,2008-09-04 A historian debunks four dozen PC myths about our nation s past Over the last forty years history textbooks have become more and more politically correct and distorted about our country s past argues professor Larry Schweikart The result he says is that students graduate from high school and even college with twisted beliefs about economics foreign policy war religion race relations and many other subjects As he did in his popular A Patriot s History of the United States Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known He challenges distorted books by name and debunks forty eight common myths A sample The founders wanted to create a wall of separation between church and state Lincoln issued the Emancipation Proclamation only because he needed black soldiers Truman ordered the bombing of Hiroshima to intimidate the Soviets with atomic diplomacy Mikhail Gorbachev not Ronald Reagan was responsible for ending the Cold War America s past though not perfect is far more admirable than you were probably taught *Money and banking illustrated by American history, by Horace White* Horace White,1895 *Behind the Tube* Andrew F. Inglis,2023-12-22 Behind the Tube 1990 tells the story of the unseen foundation of modern radio TV and cable the technology that enables programming to reach an audience It charts the evolution of this technology in all its facets technical personal economic and social It captures the efforts strategies achievements and failures of prominent and unheralded figures and companies in the dynamic and competitive broadcast industry **Black Texas Women: 150 Years of Trial and Triumph** Ruthe Winegarten,2010-07-22 Enriches and complicates African American and women s history by connecting threads of race gender class and region Darlene Clark Hine John A Hannah Professor of History Michigan State University Winner of the Liz Carpenter Award from the Texas State Historical Association Women of all colors have shaped families communities institutions and societies throughout history but only in recent decades have

their contributions been widely recognized described and celebrated This book presents the first comprehensive history of Black Texas women a previously neglected group whose 150 years of continued struggle and some successes against the oppression of racism and sexism deserve to be better known and understood Beginning with slave and free women of color during the Texas colonial period and concluding with contemporary women who serve in the Texas legislature and the United States Congress Ruthe Winegarten organizes her history both chronologically and topically Her narrative sparkles with the life stories of individual women and their contributions to the work force education religion the club movement community building politics civil rights and culture The product of extensive archival and oral research and illustrated with over 200 photographs this groundbreaking work will be equally appealing to general readers and to scholars of women s history black history American studies and Texas history Occasionally a book comes along that is monumental in scope overwhelming in amount of research and so powerful in its impact as to be categorized at once as a lasting contribution to our knowledge of humankind Black Texas Women is one of those rare books

The Journal of American History Journeyman for Jesus William R. Sutton, 2010-11-01 When industrialization swept through American society in the nineteenth century it brought with it turmoil for skilled artisans Changes in technology and work offered unprecedented opportunity for some but the deskilling of craft and the rise of factory work meant dislocation for others Journeyman for Jesus explores how the artisan community in one city Baltimore responded to these life changing developments during the years of the early republic Baltimore in the Jacksonian years 1820s and 1830s was America s third largest city Its unions rivaled those of New York and Philadelphia in organization and militancy and it was also a stronghold of evangelical Methodism These circumstances created a powerful mix at a time when workers were confronting the negative effects of industrialism Many of them found within Methodism and its populist spirituality an empowering force that inspired their refusal to accept dependency and second class citizenship Historians often portray evangelical Protestantism as either a top down means of social control or as a bottom up process that created passive workers Sutton however reveals a populist evangelicalism that undergirded the producer tradition dominant among those supportive of trade union goals Producers were not socialists or social democrats but they were anticapitalist and reform minded In populist evangelicalism they discovered a potent language and ethic for their discontent Journeyman for Jesus presents a rich and unromanticized portrait of artisan culture in early America In the process it adds to our understanding of the class tensions present in Jacksonian America

Separation of Powers and Legislative Organization Gisela Sin, 2015 Examines how constitutional requirements of the lawmaking process and the factional divisions within parties affect US representatives decisions on distributing power among themselves *The American Catalogue* , 1896
