American Cinema Culture 4th Edition:

Film, Form, and Culture Robert Kolker, 2015-08-14 Film Form and Culture 4th edition offers a lively introduction to both the formal and cultural aspects of film. With extensive analysis of films past and present, this textbook explores film from part to whole, from the smallest unit of the shot to the way shots are edited together to create narrative. It then examines those narratives, both fiction and non-fiction, as stories and genres that speak to the culture of their time and our perceptions of them today. Composition, editing, genres such as the gangster film, the Western, science fiction, and melodrama are analyzed alongside numerous images to illustrate the discussion. Chapters on the individuals who make films—the production designer, cinematographer, editor, composer, producer, director, and actor—illustrate the collaborative nature of filmmaking. This new edition includes an expanded discussion of the digital revolution in filmmaking, exploring the movement from celluloid to digital recording and editing of images, as well as the use of CGI. A new chapter on international cinema covers filmmaking from Italy to Mumbai, offering students a broader understanding of cinema on a worldwide scale. A new chapter on film acting uses images to create a small catalogue of gestures and expressions that are recognizable in film after film. Expanded content coverage and in-depth analysis throughout, including a visual analysis of a scene from Christopher Nolan's *The Dark Knight*. An expanded chapter on the cultural contexts of film summarizes the theories of cultural and media studies, concluding with a comparative analysis of Alfred Hitchcock's *Vertigo* and Judd Apatow's *This Is 40*. Over 260 images, many in color, that create a visual index to and illustration of the discussion of films and filmmaking. Each chapter ends with updated suggestions for further reading and viewing, and there is an expanded glossary of terms. Additional resources for students and teachers can also be found on the companion website www.routledge.com/cw/kolker, which includes additional case studies, discussion questions, and links to useful websites. This textbook is an invaluable and exciting resource for students beginning film studies at the undergraduate level.

American Cinema/American Culture John Belton, 2021 This book introduces the reader to basic issues related to the phenomenon of American cinema. It looks at American film history from the 1890s through the spring of 2020, but it does not always explore this history in a purely chronological way. In fact, it is not strictly speaking a history. Rather, it is a cultural history which focuses more on topics and issues than on what happened when. It begins with a profile of classical Hollywood cinema as a unique economic, industrial, aesthetic, and cultural institution. It considers the experience of moviegoing, the nature of Hollywood storytelling, and the roles played by the studio system, the star system, and film genres in the creation of a body of work that functions not only as entertainment but as a portrait of the relationship between an American national identity and an industrialized mass culture that has slowly evolved over the past century. This book assumes that the reader has little or no formal training in film history, theory, or aesthetics. It presents fairly basic concepts in such a way as to encourage discussion, not so much of individual films but of films in general. For this reason, the book concentrates on large groupings of films, on genres, topics, and periods of film history. This textbook differs

from the more traditional histories of the cinema for certain specific and important reasons Over the past fifty years the field of film study has undergone a tremendous transformation This change has been spearheaded by the work of a new generation of scholars who challenge the traditional way in which film history has been written and taught Introduction to Film courses that fifty years ago taught film as art drew heavily upon the approaches of New Criticism Contemporary film courses now teach film not only as art but also as film and they attempt to situate film as an art form within a larger industrial economic social and cultural context They rely heavily on cultural studies new historicism psychoanalysis and other contemporary critical disciplines Film history texts have changed over the years as well In the past histories consisted of simple chronological accounts of who did what and what happened when and of the stories of great men and their achievements and of straightforward accounts of the influence of technology and economics on the course of a history that unfolds in a linear fashion up to the present More recently film scholars have begun to rewrite these traditional histories creating what Thomas Elsaesser refers to as the New Film History At its best this history is driven by a sophisticated theoretically informed revisionism It simply refuses to accept the easy answers to basic historical questions that had been offered up by past historians With the initial publication of *American Cinema American Culture* in 1994 the methods and discoveries of the New Film History were applied to an introductory level text surveying the history of the American cinema

Institute and the Cultural Politics of Experimental and Independent Cinema Gracia Ramirez, 2022-11-01 This book examines the role that the American Film Institute AFI had in supporting experimental and independent cinema at a key moment of change in the history of American film Weaving a rich historical narrative Ramirez argues that the Cold War struggle for cultural supremacy motivated the creation of the federally funded AFI Exploring the intersection of business interests and political objectives Ramirez demonstrates how the AFI's approach to experimental and independent cinema was marked by an interest in promoting innovative aesthetics and protecting the creative freedom of filmmakers but lacked the attention to distribution and exhibition that would strengthen the viability of experimental and independent filmmaking as professional practices Scholars of film history and American studies will find this work particularly useful *American Cinema/American Culture* McGraw-Hill Companies, The,
