public servant around to handle a situation It had to do with that sometimes gray area between official duty and moral obligation the previous summer on my way to Twin Lakes I detoured to check the dump I d burned a few days before Suddenly I heard shots just as the Lone Ranger and Tonto did in the opening scene of almost every episode and what I saw as I neared the dump scared me A big beefy fortyish man standing next to a late model Cadillac sedan was firing a high powerd rifle He d heard me coming and turned as I stopped the patrol truck He didn t look particularly threatening But there were serious unknowns I didn t know him I didn t know what he might shoot at I didn t know he wouldn t shoot at me from Part II Chapter 10 November 1979 aboard USS Kitty Hawk on November 28 I got up showered and shaved put on clean khakis as usual and started toward the wardroom for breakfast the usual scent of salt and jet fuel was in the air and I had a lot on my mind I descended two ladders to the hangar bay only to be brought up short by bumping my head on a helicopter that wasn t supposed to be there A quick look around revealed seven more RH 53D Sea Stallion helicopters that their HM 16 markings told me belonged to Helicopter Mine Countermeasures Squadron Sixteen not part of the ship s air wing So that s why the swing south to Diego Garcia They d been flown there probably in C 5As and had flown aboard last night Had I actually slept through flight quarters I forgot about breakfast climbed the ladders back to the 02 level and knocked on the door of the flag N 2 s office This isn t going to work I said as he opened the door We can t fly those helicopters into a city of five million hostiles and rescue fifty hostages They don t want to hear that he replied and closed the door from Part III Chapter 15 Summer 1992 on the Deschutes National Forest As I walked toward the fire I began to think Am I doing the right thing After all I m just a contract wilderness information specialist not part of the fire organization I hadn t been to the Deschutes National Forest s fire school I didn t have fire clothing I didn t have a fire shelter Except for a canteen I didn t have any water and I d turned in my last red card the fire qualification card that rated me as a crew boss in 1966 when I d left the Toiyabe National Forest to go on active duty in the Navy That was twenty six years ago Should I be doing this Sure I answered my own question I d started out in the old Forest Service where everybody did everything I d done this many times before in the days before fire shirts and Nomex britches and fire shelters I d had five fire seasons on the Toiyabe been on a couple big fires I knew this business I knew how to keep out of trouble About the time I resolved that little issue I was at the fire

Johanningmeier,2009-10-01 This work explores how the generally accepted definition or measure of equality of educational opportunity at the beginning of the twenty first century differs from what it was in the immediate postwar era While there have been differing definitions or measures of equality of educational opportunity there has been a continual call from education critics and education reformers for more and better mathematics science and foreign language in the nation s schools This work maintains that public education acquired significance as a vital part of a national agenda in conjunction with three developments First the prosperity of the United States after World War II contributed to a consumer dominated culture and the phenomenon of the citizenconsumer The nation had to expand educational opportunities in response to the increased birth rate in the postwar years and in response to the increased qualifications that the workplace required for entry and employment Significantly the nation had the resources to send its children and youth to school for longer and longer periods of time Better educated citizens soon took better jobs and they spent paychecks buying everything from new technologies to new and bigger houses and new and bigger cars Increased household income allowed young members of the family to attend and even complete high school and increased the chance of affording the cost of attending college Second by the end of World War II the globalization of the international community was underway and the United States position and role in the international community were clearly challenged by the Soviet Union As the United States found itself in the Cold War its national security required an ideological a military and a technological strategy Each of these strategies ultimately depended on higher or post secondary education and that had lasting implications for the nation s elementary and secondary schools The nation s engagement in the Cold War required well educated professionals to secure intelligence and to develop effective propaganda That engagement also required scientists mathematicians engineers to develop and to maintain the technology the nation required for its defense and subsequently for the space race with the Soviet Union Third and perhaps most importantly it was becoming increasingly clear in the Cold War Era that the nation would have to address its long history of denying civil rights to some of its citizens especially but not exclusively African Americans As the Supreme Court s 1954 Brown decision signified public education was the initial venue where the struggle for racial equality took place
