African Dept., 2016-05-04 This paper discusses recent developments outlook and risks related to the economy of Zimbabwe Zimbabwe's economic difficulties have deepened GDP growth slowed significantly to 1.1 percent in 2015 mainly because of the impact of adverse weather conditions on agricultural output and power generation The current account balance improved in 2015 because of lower prices for oil imports subdued economic activity and fiscal consolidation efforts Fiscal performance in 2015 was better than programmed despite the adverse macroeconomic environment Despite spending pressures to mitigate the impact of the drought the authorities remain committed to fiscal discipline they target a primary cash deficit of 0.2 percent of GDP for 2016 Economic Management in a Hyperinflationary Environment George Kararach, Raphael O. Otieno, 2016 This volume provides a political economy analysis of leadership and economic management in crises in developing economies based on Zimbabwe's experience Beyond the Crises: Zimbabwe's Prospects for

Transformation Tendai Murisa, Tendai Chikweche, 2015-12-01 Over the past years few African countries have been the focus of discussions and analyses generating a vast array of literature as much as Zimbabwe. The socioeconomic and political crises since the turn of the century have deeply transformed the country from the ideals of a vibrant freshly independent nation just two decades earlier. These transformations have necessitated the call for the restructuring of Zimbabwean society, polity and economy. But this literature remains exclusively within the realm of academic thinking and theorising with no concerted effort to move beyond this by explicitly drawing out the policy implications. *Beyond the Crises: Zimbabwe's Prospects for Transformation* is a welcome addition to the academic and policy literature with a much broader and all embracing focus in terms of policy interventions. By focusing on different aspects of social and economic justice, Murisa and Chikweche go beyond initiating a broad discussion on these two key pillars of human development with a view to suggesting possible future directions of practical solutions and policy development for the attainment of inclusive social and economic justice for Zimbabweans.

Climate Change Adaptations in Dryland Agriculture in Semi-Arid Areas Xavier Poshiwa, G. Ravindra Chary, 2022-02-10 This book highlights the approaches for achieving trans disciplinary research integration for semi arid dryland agriculture systems under changing climates while also identifying the elements of a collaborative research agenda that are needed to advance global food security. The book emphasizes climate change being a reality and how drylands are bearing the brunt in diverse ways. The major impact of dryland agriculture is on communities that need to avoid the short and long term impacts of the changing climate, adapt strategies that can minimize these impacts and be able to mitigate climate change for which they need climate smart interventions. These interventions are only realized through knowledge and experience sharing among stakeholders from different sectors and backgrounds. It is in this context that the publication was seen as a necessity in order to bring together ideas that will transform lives and build adaptation capacities thereby providing the much needed products in communities leading to development.
