Rongo University First Year Admissions

Admission 2015 Rongo University College

Victor M. Corman

Admission 2015 Rongo University College:

The Bloomsbury Handbook of Student Politics and Representation in Higher Education Manja Klemencic, 2024-02-22 This open access handbook offers a unique and unprecedented global comparative account of student politics and representation in higher education. It provides a systematic and structured range of specially commissioned chapters reflecting on the history, contemporary practices and current debates on student political agency and collective action in higher education. The chapters analyse the organisational characteristics and political activities of student governments and map opportunities for students to intervene in and influence higher education institutions and higher education policies. The handbook re-examines and further develops the existing theoretical concepts on student agency and student impact on higher education and analytical lenses on systems of student representation and organisational models of student governments. It depicts empirical insights from 25 countries from all world regions, 4 transnational regional student federations and the Global Student Forum. The volume is unique in bringing together established scholars with a highly diverse group of current and former student leaders specially trained and empowered to conduct research for this handbook. It offers a major contribution to the study of higher education and politics and governance of higher education specifically. The ebook editions of this book are available open access under a CC BY NC ND 4.0 licence on bloomsburycollections.com [Discourses of Globalisation and Higher Education Reforms](#) Joseph Zajda, W. James Jacob, 2022-03-15 This book examines some of the major higher education reforms and policy shifts globally, particularly in the light of recent shifts in quality and standards driven education and policy research. It critiques the neo-liberal ideological imperatives of current higher education and policy reforms and illustrates the way that changes in the relationship between the state and higher education policy affect current trends in higher education reforms. Using diverse comparative education paradigms from critical theory to historical comparative research, the chapters focus on globalisation ideology and higher education reforms and examine both the reasons and outcomes of higher education reforms and policy change. The book analyses and evaluates the policy shifts in methodological approaches to globalisation and higher education reforms and their impact on education policy and pedagogy. The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation, comparative education research and higher education reforms.

Mindfulness in Internet and New Media Wen-Ko Chiou, Chao Liu, Hao Chen, Shuhua Zhou, 2023-10-24 Mindfulness is about being aware in a certain way, being consciously aware on purpose, living in the present moment without mental judgment. In addition to the in-depth application of mindfulness in different subdisciplines of psychology, e.g. social, personality, clinical, developmental, health, organizational, there is also a trend toward cross-fertilization with other social and behavioral disciplines, e.g. design, kinesiology, sociology, family studies, education, anthropology, neuroscience, philosophy, economics, medicine, organizational science. However, the application of mindfulness in the field of communication is limited. With the rapid development of the Internet and new media, the study of Internet communication is

growing rapidly The Internet and new media make it easy to connect with others explore a new world and regard cyberspace as an extension of one's own thoughts and personality Nevertheless when people use the Internet and new media mindlessly they will easily experience the social effects on their virtual selves and encounter psychological problems e.g. network morality network anxiety network pornography network addiction and cyberbullying which has become a widespread and serious problem As an important part of positive psychology mindfulness intervention has been proved to help improve a series of negative psychological states and promote positive emotions and subjective well-being However what theoretical and practical contributions can mindfulness in the Internet and new media bring remains unknown Thus this Research Topic focuses on the influence and intervention of mindfulness on the psychological problems caused by the network new media communication We welcome high quality studies using a variety of research methods including quantitative qualitative mixed methods and reviews on the second generation of mindfulness interventions and other meditation based interventions e.g. focused attention meditation transcendental meditation and loving kindness meditation This Research Topic encourages submissions that cover but are not limited to the following topics 1 The internet and new media guided mindfulness and loving kindness meditation practice 2 Mindfulness and interpersonal communication in the network network trust network security network intimacy 3 Mindfulness and network clustering behavior 4 Mindfulness and online consumer psychology 5 Mindfulness and cyber moral psychology cyberbullying cyber altruism and prosocial behavior 6 Mindfulness and online pornography 7 Mindfulness and internet addiction 8 Mindfulness and online psychological counseling 9 Mindfulness and new media anxiety
