Regional Office for Education in Africa,1979 **International Education** Daniel Ness,Chia-Ling Lin,2015-03-17 This encyclopedia is the most current and exhaustive reference available on international education It provides thorough up to date coverage of key topics concepts and issues as well as in depth studies of approximately 180 national educational systems throughout the world Articles examine education broadly and at all levels from primary grades through higher education formal to informal education country studies to global organizations **Gay is Gay and Priesthood is Priesthood. Should Gay People be admitted to the Catholic Priesthood?** Tarcisius Mukuka,2021-02-19 Polemic Paper from the year 2021 in the subject Theology Historic Theology Ecclesiastical History grade 1 0 Kwame Nkrumah University language English abstract This article aims at examining the Catholic Church s indefensible and ambivalent position on homosexuality vis vis the Catholic priesthood I

conclude that while its teaching is clear in my view erroneous its practice is ambivalent due to the many gay priests among its ranks even some would say up to the highest level of cardinals as the recent McCarrick Report 2020 by the Vatican Secretariat of State revealed On one level the answer to the question whether gay men and by extension gay women should be admitted to the Catholic priesthood or not is a straightforward affirmative They should This is probably a left of centre position It is my position Carlo Maria Vigan calls it an anti Church of heretics corrupt men and fornicators who include the Vatican Sanhedrin or what he calls the deep Church as I have mentioned below It would argue with evidence in bucket loads that there are already gay clerics both high and low in the Catholic priesthood but only men I hasten to add I know a handful In my erstwhile career as a Catholic seminary lecturer I personally knew a gay priest colleague an amiable fellow if ever there was one There was queer talk about him wherever he had been posted but nothing concrete until at his last post he was reported to the Zambian police for sexual abuse of two teenage boys May be if it had not been for the age of his victims he might still be in the gay closet

Andreas Freytag, Abena D. Oduro, African integration has had a long history dating back to the end of colonization in the 1960s It has generated enormous interest in recent years not least because the continent has recently taken some bold steps to integrate further such as the Tripartite Free Trade Area or the creation of the African Continental Free Trade Area AfCFTA With this book we offer an innovative perspective on African integration By inviting mostly young African scholars from different disciplines in the social sciences and humanities we make African voices audible and start a discussion of the African integration efforts from an African perspective using novel criteria to judge different African integration attempts In addition to the younger generation's representatives we also invited scholars from Europe and Latin America to bring other continents perspectives to the fore **Sustainable Development in Africa** Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their

complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies
