## **Advance Level Time Table 2015:**

**Education at a Glance 2015 OECD Indicators** OECD,2015-11-24 Education at a Glance OECD Indicators is the authoritative source for accurate and relevant information on the state of education around the world It provides data on the structure finances and performance of education systems in the OECD s 34 member countries as well as a number of

**Handbook of Public Transport Research** Graham Currie,2021-04-30 Providing a comprehensive overview and analysis of the latest research in the growing field of public transport studies this Handbook looks at the impact of urbanisation and the growth of mega cities on public transport Chapters examine the significant challenges facing the field that require new and original solutions including congestion and environmental relief and the social equity objectives that justify public transport in cities

**Jamaica** International Monetary Fund. Western Hemisphere Dept.,2014-12-23 Discussions centered on the preparations for the 2015 16 budget and reforms to strengthen the financial sector and boost growth The authorities have deepened their efforts in supporting their ambitious fiscal goals by strengthening public financial management and revenue administration and they reiterated their resolve to continue containing the wage bill Steps have also been identified to advance the reform of the securities dealers and to increase the resilience of the financial system

From GCSEs to EBCs Great Britain. Parliament. House of Commons. Education Committee,2013 The Government s plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government s plans The report also questions how well the Government s proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government s decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government s proposals

*Beyond McDonaldization* Dennis Hayes,2017-04-19 Beyond McDonaldization provides new concepts of higher education for the twenty first century in a unique manner challenging much that is written in mainstream texts This book undertakes a reassessment of the growth of McDonaldization in higher education by exploring how the

application of Ritzer's four features: efficiency, predictability, calculability, and control has become commonplace. This wide-ranging text discusses arguments surrounding the industrialisation of higher education with case studies and contributions from a wide range of international authors. Written in an accessible style, *Beyond McDonaldization* examines questions such as: Can we regain academic freedom whilst challenging the McDonaldization of thought and ideas? Is a McDonaldization of every aspect of academic life inevitable? Will the new focus on student experience damage young people? Why is a McDonaldized education living on borrowed time? Is it possible to recreate the university of the past or must we start anew? Does this industrialisation meet the educational needs of developing economies? This book brings international discussions on the changing world of higher education and the theory of McDonaldization together, seeking to provide a positive future vision of higher education. Analysing and situating the discussion of higher education within a wider social, political, and cultural context, this ground-breaking text will have a popular appeal with students, academics, and educationalists. *Human Development and the Path to Freedom* Leandro Prados de la Escosura, 2022-07-28 A new framework for measuring the evolution of human development and wellbeing in the modern world **Education for All 2000-2015: Achievements and challenges** UNESCO, 2015-04-08 Literaturverz S 414 459 **Teaching and Time Poverty** Greg Thompson, Anna Hogan, 2024-12-04 As teacher shortages reach a global crisis point, this book explores how time poverty has become a critical factor in the working lives of teachers and school leaders. Arguing that we need to move away from framing the problem of teachers' work as simply workload, this book suggests that understanding time poverty is the first step in moving toward more manageable working lives. The book brings together international perspectives on teacher time poverty, drawing on theoretical and empirical work to underscore the growing complexity of teachers' work and how this impacts job satisfaction, stress, and feeling that there is never enough time to accomplish all that needs to be done. Many policy solutions misdiagnose the problems of teachers' work simply suggesting it is an issue of workload. The chapters investigate issues of work intensification, finding that teachers are not only working longer but also working harder as they manage more complex classrooms and policy mandates. This book is essential reading for those interested in understanding how current education policy both produces time poverty and could better identify and respond to the complexities of teachers' work. **Global Vessel-Source Maritime Pollution Governance—Technical Innovation and Policy Orientation** Lang Xu, Zheng Wan, Jihong Chen, 2023-09-25 The maritime industry plays an important role in international trade activities and the global economy. It is estimated that international shipping carries approximately 80% of global trade by volume and more than 70% by value. However, increasing maritime activities have had a negative impact on the marine environment and human health. For example, in November 2002, a tanker carrying 77,000 tons of fuel oil sank in the Bay of Biscay, which polluted thousands of kilometers of Western European coasts, rivers, streams, and swamps. Oil spills caused by ship accidents and other pollution associated with maritime activities have attracted considerable attention in the research community. A large number of

studies on shipping pollution have been conducted across different disciplines However new challenges are emerging in maritime operation and management leading to research questions related to intelligent technology and environmental protection maritime pollution and governance maritime accidents and environmental emergency **ICTMT 2019** Sharina Osman,Ilham Sentosa,Putu Ngurah Suyatna Yasa,Mirsa Umiyati,I Gede Suranaya Pandit ,2019-08-19 The 1st International Conference on Tourism Management and Technology is motivated by improving the quality of research and development relating to tourism management and technology fields Thus this conference has aims 1 to bring together the scientists researchers and practitioners and lecturers 2 To share and to discuss theoretical and practical knowledge about innovation in tourism management and technology fields The conference took place in Universiti Kuala Lumpur Malaysia on August 17th 2019 There are 34 papers that are participated from various topics The conference involves tourism management and technology fields such as Media and Technology in Tourism Innovation in Tourism The Theoretical Perspective on Tourism Sustainable Tourism Gender and Diversity Issue in Tourism Technology and Management on Tourism Law in Tourism Health Tourism Tourism Policy and Planning Tourism and Environment Finance in Tourism Specifically this conference can be used as a scientific forum for accommodating discussion among young researchers that originated from Indonesia in the field of Tourism Management and Technology Therefore the invited speakers in this conference are the researchers that are well known and reputable in the world We would like to thank the organizing committee and the members of reviewers for their kind assistance in reviewing the papers We would also extend our best gratitude to keynote speakers for their invaluable contribution and worthwhile ideas shared in the conference Furthermore ICTMT is hoped to be able to be used as academic media to exchange ideas and as a result it will succeed in deciding the recommendation related to the tourism management and technology phenomenon
