Congress, 1995 The Astronomer's Chair Omar W. Nasim, 2021-09-21 The astronomer's observing chair as both image and object and the story it tells about a particular kind of science and a particular view of history The astronomer's chair is a leitmotif in the history of astronomy appearing in hundreds of drawings prints and photographs from a variety of sources Nineteenth century stargazers in particular seemed eager to display their observing chairs task specific often mechanically adjustable observatory furniture designed for use in conjunction with telescopes But what message did they mean to send with these images In The Astronomer's Chair Omar W

Nasim considers these specialized chairs as both image and object offering an original framework for linking visual and material cultures. Observing chairs, Nasim ingeniously argues, showcased and embodied forms of scientific labor, personae, and bodily practice that appealed to bourgeois sensibilities. Viewing image and object as connected parts of moral, epistemic, and visual economies of empire, Nasim shows that nineteenth-century science was represented in terms of comfort and energy and that manly postures of Western astronomers at work in specialized chairs were contrasted pointedly with images of effete and cross-legged Oriental astronomers. Extending his historical analysis into the twentieth century, Nasim reexamines what he argues to be a famous descendant of the astronomer's chair: Freud's psychoanalytic couch, which directed observations not outward toward the stars but inward toward the stratified universe of the psyche. But whether in conjunction with the mind or the heavens, the observing chair was a point of entry designed for specialists that also portrayed widely held assumptions about who merited epistemic access to these realms in the first place. , 1864. **Fiction of Imperialism** Philip Darby, 1998-05-31. This book examines a range of fiction and criticism as it pertains to colonialism, the North-South engagement, and contemporary Third World politics. The *Fiction of Imperialism* attempts to promote dialogue between international relations and postcolonialism. It addresses the value of fiction to an understanding of the imperial relationship between the West and Asia and Africa. A wide range of fiction and criticism is examined as it pertains to colonialism, the North-South engagement, and contemporary Third World politics. The book begins by contrasting the treatment of cross-cultural relations in political studies and literary texts. It then examines the personal as a metaphor for the political in fiction depicting the imperial connection between Britain and India. This is paired with an analysis of African literary texts which takes as its theme the relationship between culture and politics. The concluding chapters approach literature from the outside, considering its apparent silence on economics and realpolitik and assessing the utility of postcolonial reconceptualization. **Renewal of interest in imperialism and literary texts about imperialism**. Examines a range of fiction and criticism as it pertains to colonialism, the North-South engagement, and contemporary Third World politics. First volume in a new series which deals with the differences between culture and politics as well as in ways of seeing and the sources that can be drawn on. Progressive Politics and the Training of America's Persuaders Katherine Adams, 1999. A historical analysis of writing instruction in the 20th century within the contexts of political and social conditions.
