argues that we should understand justice in people as a matter of recognition of and respect for equal authority to obligate one another That is we should see one another as having equal capacity to obligate others through our persons and choices This is a form of equality that is usually overlooked in discussions of equality but here it is the cornerstone of justice vindicating Aristotle s thought that justice is itself a matter of a kind of equality LeBar rethinks a number of popular assumptions including that we can make sense of justice in societies or institutions without thinking of the implications for our aspirations to be just people a thought that is long overdue His book is a reformulation of justice with the potential to fundamentally change the way we treat one another American Book Publishing Record ,2001 **no specific title** United States.
