A Concise History of Western Civilization: From Prehistoric to Early Modern Times: Third Edition Gary Forsythe, 2020-08-03. A Concise History of Western Civilization From Prehistoric to Early Modern Times Third Edition By Gary Forsythe. This volume is designed to serve as the textbook for an undergraduate college course that surveys the history of Western Civilization up to the Early Modern Period. It differs from most Western Civilization books in that it places more emphasis on the ancient world and less on the Middle Ages. It treats the ancient Near Eastern civilizations with a view to understanding the historical context of ancient Judaism and the Hebrew Bible, and it also stresses the political thought and institutions of the ancient Greeks and Romans, which have been so important in shaping the political institutions of many modern nations worldwide. The text is a straightforward textbook of basic historical information and represents the content of the author's class lectures in his course on Western Civilization.

A Brief History of Archaeology Nadia Durrani, Brian M. Fagan, 2016-06-17. This short account of the discipline of archaeology tells of spectacular discoveries and the colorful lives of the archaeologists who made them, as well as of changing theories and current debates in the field. Spanning over two thousand years of history, the book details early digs as well as covering the development of archaeology as a multidisciplinary science, the modernization of meticulous excavation methods during the twentieth century, and the important discoveries that led to new ideas about the evolution of human societies. *A Brief History of Archaeology* is a vivid narrative that will engage readers who are new to the discipline, drawing on the author's extensive experience in the field and classroom. Early research at Stonehenge in Britain, burial mound excavations, and the exploration of Herculaneum and Pompeii culminate in the nineteenth-century debates over human antiquity and the theory of evolution. The book then moves on to the discovery of the world's pre-industrial civilizations in Egypt, Mesopotamia, and Central America; the excavations at Troy and Mycenae; the Royal Burials at Ur; Iraq, and the dramatic finding of the pharaoh Tutankhamun in 1922. The book concludes by considering recent sensational discoveries such as the Lords of Sip' n in Peru and exploring the debates over processual and postprocessual theory, which have intrigued archaeologists in the early 21st century. The second edition updates this respected introduction to one of the sciences' most fascinating disciplines.

Hollywood or History? Scott L. Roberts, Charles J. Elfer, 2021-01-01. The challenges of teaching history are acute where we consider the world history classroom. Generalized world history courses are a part of many, if not most, K-12 curricular frameworks in the United States. While United States history tends to dominate the scholarship and conversation, there are an equally wide number of middle-level and secondary students and teachers engaged in the study of world history in our public schools. And the challenges are real. In the first place, if we are to mark content coverage as a curricular obstacle in the

history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students lives not just temporally but often geographically and culturally Thus the rationale for the present text Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History The reviews of the first volume Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the Hollywood or History strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans grades 6 12 that address nine eras in world history
