Resources in Education ,1991 *The Zimbabwe Science News* ,1999 *New Serial Titles* ,1995 A union list of serials commencing publication after Dec 31 1949 *The State of Zimbabwe's Environment*, 1998 Munyaradzi Chenje,Lovemore Sola,D. Paleczny,1998 Seeds for African Peasants Esbern Friis-Hansen,1995 Index to Livestock Literature Microfiched in Zimbabwe ,1986 **Climate Change, Assets and Food Security in Southern African Cities** Bruce Frayne,Caroline Moser,Gina Ziervogel,2013-03-01 There is overwhelming evidence that the climate is changing It is the poorest countries and people who are the most vulnerable to this threat and who will suffer the most This book shows how increasing urbanization and growing poverty levels mean that it is imperative to ask how climate change might impact on asset accumulation and food security for the urban poor It demonstrates how these three often separate foci can be brought together to frame a holistic urban adaptation approach Furthermore although much has been written about climate change limited evidence exists in southern Africa of how climate change has been integrated in urban planning The authors explore the urban climate change nexus linking asset adaptation climate change science and food security through several case study cities These include Cape Town George and Khara Hais South Africa Lusaka Zambia Maputo Mozambique Mombasa Kenya and Harare Zimbabwe The results shed light on how this nexus might be explored from different perspectives both theoretical and practical in order to plan for a more resilient future Climate Change Assets and Food Security in Southern African Cities comprises ten chapters which focus on southern African cities with each chapter written by highly experienced academics research focused practitioners and professional planners Although the book concentrates on southern African cities the insights which are presented can be used to understand other urban centres in low and middle income countries outside of this region and around the world **Gender, Politics and Land Use in Zimbabwe 1980ñ2012** Mafa, Onias,Gudhlanga, Enna S.,2015-10-19 The agrarian reform dynamics in southern Africa have to be understood within the framework of colonial land policies and legislation that were designed essentially to expropriate land and natural resource property rights from the indigenous people in favour of the white settlers Colonial land policies institutionalised racial inequity with regard to land although conditions are not homogeneous there are broad themes that cut across the southern Africa region Colonialism dispossessed and impoverished the people by taking away the most productive lands Neoliberal globalization has undermined the people s well being through direct influences on agriculture and rural economies in conjunction with policies promoted by national governments and international agencies Another shared feature is to be found in the high rates of unemployment poor returns to small scale agriculture lack of access to social services such as health and education all of which serve to erode existing livelihood activities and perpetuate relative and absolute poverty in rural areas This comparative study on Zimbabwe s agrarian reforms may provide countries such as South Africa and Namibia with valuable lessons as they attempt their own land reforms Conflicts between colonialists and the indigenous people in the then

Rhodesia centred mainly on the land question This inequitable distribution of land resulted in Africans waging liberation struggles in order to reclaim their land from the colonialists In most post colonial countries calls have been made for land redistribution as a way of redressing colonial injustices in land tenure systems The process of reclamation of land and redistributing it to the indigenous people is fraught with problems and has resulted in the present day land crisis in many parts of Africa and other continents These are some of the issues this book examines attempts to understand and explain from a gender perspective Gender relations are viewed in terms of land use and ownership in pre colonial colonial and post colonial Zimbabwe These socially constructed roles have been found to be unequal in terms of power and decision making It is argued that lessening of social inequalities between men and women reduces poverty raises farm efficiency and improves natural resource management The book emphasizes that once women are empowered the quality of life of their households improves *Integrated Water Resources Management, Institutions and Livelihoods under Stress* Collin C.

Mabiza,2018-03-09 The majority of people in Limpopo river basin depend on rainfed agriculture Unfortunately the Limpopo is water scarce and parts of the basin such as Zimbabwe s Mzingwane catchment are under stress in terms of agro ecological and socio politicoeconomic conditions Integrated Water Resources Management IWRM has been adopted in the river basin i
