introduction to the volume is beautifully written and sets up the rest of the volume in a comprehensive way It explains the book s aim to advance theoretical and methodological issues by exploring the role of missionary encounters in the development of modern domesticities showing the agency of indigenous women in negotiating both change and continuity and providing a wide range of case studies to show breadth and complexity and the local and national specificities of engagements with both missionaries and modernity My view is that all three aims are well and truly fulfilled Helen Lee Head
