Coulomb's Law

1. The diagram is of a hydrogen atom.

- Label the proton in the nucleus with a + sign and the orbital electron with a - sign.
- The electrical interaction between the nucleus and the orbital electron is a force of _____ (attraction) _____ (repulsion).
- According to Coulomb's law,

$$F = k \frac{q_1 q_2}{r^2}$$

if the charge of either the nucleus or the orbital electron were greater, the force between the nucleus and the electron would be _____ (greater) _____ (less).

_____ (greater) _____ (less).

and if the distance between the nucleus and electron were greater the force would be _____ (greater) _____ (less).

If the distance between the nucleus and electron were doubled, the force would be _____ (1/4 as much) _____ (1/2 as much) _____ (two times as much) _____ (four times as much).

2. Consider the electric force between a pair of charged particles a certain distance apart. By Coulomb's law:

- If the charge on one of the particles is doubled, the force is _____ (quadrupled) _____ (halved) _____ (doubled) _____ (quadrupled).
- If instead the charge on both particles is doubled, the force is _____ (quadrupled) _____ (halved) _____ (doubled) _____ (quadrupled).
- If instead the distance between the particles is halved, the force is _____ (quadrupled) _____ (halved) _____ (doubled) _____ (quadrupled).
- If the distance is halved and the charge of both particles is doubled, the force is _____ times as great.

Transformational Creativity Robert J. Sternberg, Sareh Karami, 2024-03-19 This edited volume brings together leading scholars in diverse disciplines to share their best thinking on how creativity can be conceived of, taught for and deployed to serve rather than undermine humanity. Transformational creativity as defined in this book is creativity deployed to make a positive, meaningful and potentially enduring difference to the world. Transformational creativity is compared to transactional creativity which is creativity deployed in search of a reward, whether externally or internally generated. Reunification Family Therapy Jan Faust, 2017-12-20 A unique evidence-based treatment manual for repairing parent-child relationships. Childhood problems are often related to and worsened by the disintegration of the family structure, whether through parental separation and divorce, military service or incarceration. Reunification therapy is a therapeutic process incorporating different empirically based methods: CBT, humanistic and systemic, to help repair relationships between parents and children and restore not only physical contact but also meaningful social, emotional and interpersonal exchanges between parents and children. This unique manual, bringing together the vast experience of the author, outlines the many situations numerous families currently face and why the need for reunification therapy exists. The therapist works firstly with the individual family members and then with all the family in conjoint sessions. The manual expertly guides clinicians through pretreatment decisions and processes to enable them to decide where, when and in what form reunification therapy is appropriate, taking into account ethical, legal and special family issues. Detailed chapters outline the structure and issues for the individual and conjoint sessions as well as a step-by-step treatment plan template. Additional tools in the Appendix enable clinicians to monitor and effectuate change.

Higher Education: Handbook of Theory and Research Michael B. Paulsen, 2015-01-12 Published annually since 1985, the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities. Each chapter provides a comprehensive review of research findings on a selected topic, critiques the research literature in terms of its conceptual and methodological rigor and sets forth an agenda for future research intended to advance knowledge on the chosen topic. The Handbook focuses on a comprehensive set of central areas of study in higher education that encompasses the salient dimensions of scholarly and policy inquiries undertaken in the international higher education community. Each annual volume contains chapters on such diverse topics as research on college students and faculty organization and administration, curriculum and instruction, policy, diversity issues, economics and finance, history and philosophy, community colleges, advances in research methodology and more. The series is fortunate to have attracted annual contributions from distinguished scholars throughout the world.
