*Narratives of Qualitative Research* Josh Tenenberg, 2024-05-21 Narratives of Qualitative Research uses a novel form of writing about how to do qualitative research called a praxis narrative Each narrative is told from the author s perspective in carrying out one of his past research studies in the social sciences Told chronologically and in a first person voice the narratives position the reader alongside the narrator so as to vicariously experience how research happens in its situated particulars Rather than a set of idealizations and universalized pronouncements the author reveals what really goes on when one is in the thick of complex and challenging research studies the points of trouble along with the successes This will be relevant to researchers who have already undertaken one or more empirical research studies though not necessarily using qualitative approaches and now find themselves facing something new a new analytic method a new theoretical lens a new form of data collection a new domain of research questions a new rhetorical approach This requires letting go of the secure handholds of prescribed methods and

responding to the contingencies that arise in the midst of the research The reader is invited to follow along as the author makes visible his praxis of qualitative research Unlike more conventional texts in this unique alternative the reader can follow the author's journey through his research studies as a way to reorient their conception of qualitative research and their own praxis of it This is fascinating reading for qualitative researchers and students taking qualitative research courses across the social sciences education and behavioural sciences

Never Stop Learning Fred Stephenson, 2024-03-14 Success happiness love appreciation and respect During the course of my 80 year life I cannot remember meeting anyone who didn't want to obtain each of these goals collectively a fulfillment of their lives an affirmation that their lives really made a difference and meant something and that their efforts were worthwhile At the same time I know too many people who feel just the opposite that they compared to others have been unsuccessful And they are not as happy as they hoped to be My purpose in writing this book is to uplift and help them Never Stop Learning is a collection of 21 stories that I originally wrote for my 10 grandchildren as helpful guidance to assist them in navigating life more easily and successfully Subsequently I became convinced that if my stories could help my family then they could help many other people This book is the result Each story's purpose is to teach lessons defining the keys to unlocking success happiness love appreciation and respect Who should read this book Truthfully the ones who could get the most benefit are 16-35 year olds because they have the most time left maybe the greatest need plus they are going through the years where they are making many key decisions in rapid order about education careers jobs and perhaps marriage and children But I truly believe anyone from 8 to 100 would learn from the book's lessons I state this because some of my reviewers in their 80's told me so This I know None of us will ever know everything about most anything We still have plenty to learn Personally I am never going to stop trying to learn Like me others still have that hunger for knowledge and understanding I hope more will join us in that pursuit Never stop learning You won't regret it
