**'Those Men Were So Coward'** Anne S. Macpherson, 1998 The Oxford Handbook of Central American History Robert H. Holden, 2022 Leading scholars of Central America offer critical analyses of major themes in the historiography of this seven country region of Latin America Chapters engage both the novice's search for basic orientation and context and the experienced scholar's interest in evaluative critiques of the historical literature **The Marcus Garvey and Universal Negro Improvement Association Papers, Volume XI** Marcus Garvey, Universal Negro Improvement Association, 1983 These papers contain over 2300 documents relating to the presence and influence of the Universal Negro Improvement Association in the Caribbean from 1911 to 1945 **The Power of Greed** Michael Rosberg, 2005-08-16 The Power of Greed recommends a shift away from the moralistic way we often go about doing international development It says we can be too focused on our own ambitions for others and too unaware of what they're up to on their own behalf It argues that the desperate and greedy behaviours of the poor and their oppressors are not the enemies of international development but its potential allies It also says we ought to resist taking sides in defence of the poor Productive alliances between oppressed and oppressor are possible if the conditions are right Furthermore it says that we need to tie national institutional and economic strengthening measures to the creation of sustainable interest groups at the grassroots Only they could be in a position to prevent greed and corruption at the top in a sustainable way For these reasons The Power of Greed tries to get us to focus on doing more about the opportunity structure in the developing world and for the rest to rely on the opportunism of the population *Language Contact. Volume 2* Jeroen Darquennes, Joseph C. Salmons, Wim Vandenbussche, 2025-04-21 Targeting a full range of students and scholars this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter individual and societal language contact as well as the dynamics of multidisciplinary language contact studies Fueled by a wealth of data from a rich variety of contact situations its geographically balanced case studies are governed by the triangulation between a focus on language structure and change a sincere drive of sociopolitical and academic agency and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges Family and People All Well- Roy Murray, 2006 **Maya Christians and Their Churches in Sixteenth-Century Belize** Elizabeth Graham, 2020-03-17 It is widely held that Christianity came to Belize as an extension of the conquest of Yucatan and that

adherence to Christian belief and practice was abandoned in the absence of enduring Spanish authority. An alternative view comes from the excavations of Maya churches at Tipu and Lamanai which show that the dead were buried in Christian churchyards long after the churches themselves fell into disuse and pre-Columbian ritual objects were cached in Christian sacred spaces both during and after Spanish occupation. Excavations also reveal that the architectural style of these early churches is Franciscan in inspiration but nonetheless the product of continuing community efforts at construction and repair. A conclusion difficult to ignore is that the Maya of Tipu and Lamanai considered themselves Christians with or without Spanish presence. Viewing historical and archaeological data through the lens of her personal experience of Roman Catholicism and informed by feminist approaches, Elizabeth Graham assesses the concept of religion, the significance of doctrine, the empowerment of the individual and the process of conversion by examining the meanings attributed to ideas, objects and images by the Maya, by Iberian Christians and by archaeologists. Graham's provocative study also makes the case that the impact of Christianity in Belize was a phenomenon that uniquely shaped the development of the modern nation.

A volume in the series *Maya Studies* edited by Diane Z. Chase and Arlen F. Chase. *Black in Print* Jennifer Carolina Gómez Menjívar, 2023-05-01. *Black in Print* examines the role of narrative from traditional writing to new media in conversations about race and belonging in the isthmus. It argues that the production, circulation and consumption of stories has led to a trans-isthmian imaginary that splits the region along racial and geographic lines into a white mestizo Pacific coast, an Indigenous core and a Black Caribbean. Across five chapters, Jennifer Carolina Gómez Menjívar identifies a series of key moments in the history of the development of this imaginary: Independence, Intervention, Cold War, Post-Revolutionary and Digital Age. Gómez Menjívar's analysis ranges from literary beacons such as Rubén Darío and Miguel Ángel Asturias to less studied intellectuals such as Wingston González and Carl Rigby. The result is a fresh approach to race, the region and its literature. *Black in Print* understands Central American Blackness as a set of shifting coordinates plotted on the axes of language, geography and time as it moves through print media.

**Governing Maya Communities and Lands in Belize** Laurie Kroshus Medina, 2024-05-17. In Belize, conservation NGOs push for wildlife sanctuaries to protect endangered ecosystems. State actors authorize timber extraction to generate revenue for debt repayment. Maya communities dispossessed by state and NGO strategies pursue claims for Indigenous rights to lands. This book explores the conflicting forms of governance that emerge as these trajectories intersect.
