13 Ancient Things That Don T Make Sense In History:

13 Ancient Things That Don't Make Sense in History MR Robert John Langdon,2014-11-19 Are you a Historic Mushroom The word Mushroom is rarely used in historical connections However most of our history books are full of errors and incorrect assumptions If you have never heard of this term before it is in the kindest terms used to describe a person or persons keep in the dark and feed with manure So is our history a cock up or is it a conspiracy He who controls the present controls the past He who controls the past controls the future 1984 George Orwell s Nineteen Eighty Four is a fictional account of the manipulation of the historical record for nationalist aims and manipulation of power In the book the creation of a national story by way of management of the historical record is at the heart of the debate about history as propaganda To some degree all nations are active in the promotion of such state stories with ethnicity nationalism gender power heroic figures class considerations and important national events and trends all clashing and competing within the narrative Such cleaver manipulation is almost impossible to identify if you have been indoctrinated into these lies as you have no benchmark to judge them against However within those manipulations there will be facts that just don t make sense I have highlighted some of these facts in this book to illustrate that some of our history is only nonsense which could be due to sleight of hand or simple due to the simplistic linear way we view history itself Homo sapiens are the only creatures capable of abstract thought and a perception of time creating a manipulation of thought concerning the past the future and the present An inquiry into the nature of history is based in part on a working understanding of time as a human experience Therefore history as understood by Western thought tends to follow an assumption of this linear progression this happened and consequently that happened and so that happened because this happened first This is also known as the cause and effect philosophy Yet most ancient cultures held a mythical conception of history and time that was NOT linear They believed that history was cyclical with alternating Dark and Golden Ages Plato called this the Great Year and other Greeks called it an aeon or eon Examples are the ancient doctrine of eternal return which existed in Ancient Egypt the Indian religions or the Greek Pythagoreans and the Stoics conceptions In The Works and Days Hesiod described the five ages of Man the Gold Age the Silver Age the Bronze Age the Heroic Age and the Iron Age each with their ebbs and flows of progression Other scholars suggest there were just four ages corresponding to the four metals and the Heroic age was a description of the Bronze Age The clearest illustration of this ebb and flow of historical invention can be seen with the Roman Villa The use of a hypocaust created a house that had under floor heating which is much more efficient than fires or radiators yet if this house was found without reference archaeologists using linear logic would conclude that it must have been built in the 21st century as all previous houses lacked the superior design So if our linear history is fundamentally flawed where are these problems and are there a more rational explanation for them Here are my top thirteen **Philosophy in the Middle Ages** Arthur Hyman,James J. Walsh,Thomas Williams,2010-09-24 Thomas Williams revision of Arthur Hyman and James J Walsh s

Making Sense of the Sacred James L. Rowell,2021-05-18 What is the overarching meaning of the world s religions Textbooks relay what the religions believe and leave it at that But the more puzzling questions Which of them is true How do all viewpoints fit together or challenge one another are left unaddressed Like an unfinished puzzle the myriad religions present themselves to us as countless pieces but their relationship to each other and ultimate importance escape us Can the religions of the world really agree on anything or fit into a common narrative or singular image This work argues that despite the disagreements and contradictions among world religions a universal message can be found by studying them with care It offers a comprehensive examination of religions and their meaning uniquely bound by the hope and affirmation that in some way they are universally connected It affirms a universalism by wisdom which contends that a moral and spiritual wisdom can be found in many of the world s religions Understood and interpreted properly religions can help all people lead good and meaningful lives *Small Things in the Eighteenth Century* Chloe Wigston Smith,Beth Fowkes Tobin,2022-09-29 Playful useful decorative revolutionary small things possess a rich array of meanings from the ordinary to the extraordinary

Making Sense of Old Testament Genocide Christian Hofreiter,2018 The divine commands to annihilate the seven nations living in Canaan to devote them to destruction herem in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles Making Sense of Old Testament Genocide Christian Interpretations of Herem Passages addresses the challenges these texts pose It presents the various ways in which interpreters from the first century to the twenty first have attempted to make sense of them The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war the analysis of the use of herem texts in the crusades the inquisition and various colonial conquests illustrates this violent way of reading the texts which has such alarming contemporary relevance Three additional approaches can also be traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices

are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today

80 Old Testament Characters of World History: Chronological, Historical and Archaeological Evidence Gerard Gertoux, 2016-02-27 Despite the fact that the name of many characters mentioned in the Old Testament like David King of Israel have been recently confirmed by archaeology as well as their epoch and the events in which they were involved most archaeologists continue to deny the historicity of the Bible they view as pious fiction or a mythical account They argue that the major events in the Bible such as the victory of Abraham against Chedorlaomer an unknown king of Elam around 2000 BCE the victory of Moses against an unknown Pharaoh around 1500 BCE or the victory

of Esther an unknown Persian Queen against an unknown vizier of Xerxes never existed because they left absolutely no evidence They also explain that according to what we know today these events could not have occurred These logical arguments are impressive but a precise chronological analysis based on absolute dates coupled with a rigorous historical investigation shows that all those major events really took place at the dates and places indicated *The Imperial Bible Dictionary, Historical, Biographical, Geographical, and Doctrinal: Including the Natural History, Antiquities, Manners, Customs and Religious Rites and Ceremonies Mentioned in the Scriptures, and an Account of the Several Books of the Old and New Testaments* Patrick Fairbairn, 1866
