Advanced Googling Garrett Wasny, MA, CMC, CITP/FIBP, 2014-06-08 This is the workbook for Garrett Wasny's Advanced Googling professional development seminar. He delivers the course online and in person to accountants, lawyers, doctors, engineers, pro sports executives, and other elite knowledge workers worldwide. In easy-to-understand and non-technical language, the course and manual explain how to customize Google for maximum speed, security, and style. Utilize productivity-enhancing apps and plug-ins that instantly enhance your Google experience and performance. Scan Google with added precision, nuance, speed, and confidence. Discover literally 10x more information that's hiding in plain sight on the Google search results page. Compose advanced search queries that generate more relevant results automatically and continuously monitor your operational landscape using free alert and aggregation services. Use Google's new generation of predictive apps that know what you want without you having to ask. Use little-known hot words and commands to uncover concealed Google signals. Creatively use language in Google search strings to boost relevancy. Transform Google into your backup brain, robot assistant, and ambient sidekick. Leverage Google hundreds of ways to improve your online research, collaboration, and communications in your professional and personal life.

Advanced Media Planning John R. Rossiter, Peter J. Danaher, 2011-06-27 Media planning consists of formulating a media strategy to deliver the creative so as to best meet the brand's advertising objectives and then implementing that strategy in an accurate and cost-effective manner. Given that approximately ninety percent of advertising dollars are spent in media, a sound understanding of media planning is essential for the researcher and professional media planner alike. Although this book provides a novel and advanced approach to media planning, the basics are covered as well, making the book suitable for trainees. The authors argue that current media planning is still too conventional; that while reach and frequency are not incorrect, they are certainly too simplistic for modern media planning. This book introduces the advanced concept of using reach patterns in making the reach decision and develops the method of factoring in effective frequency when making the frequency decision. Reach patterns are an entirely new concept. Effective frequency, while not new, needs proper definition and an operational formula for its calculation, both of which are provided here. Other new concepts are introduced and shown to be necessary for choosing an appropriate media strategy. The media planning software Media Mania, designed by Peter Danaher, can be downloaded using the following link: <http://www.mbs.edu>. Media Mania Software.

Pro Football Schedules Ivan Urena, 2013-12-03 This book explains how the NFL determines each team's opponents and how the league's scheduling format has evolved throughout the years. It includes a history on the evolution of the pro football schedule, explores all of the scheduling formulas used in the National Football League, American Football League, and the All America Football Conference, and presents home and away opponent charts from 1933 through the 2017 season.

Hybrid and Advanced Technologies S. Prasad Jones Christy, S. Nurhayati Nurhayati, S. Kannadhasan, 2025-03-21 The proceedings of the International Conference on Hybrid and Advanced Technologies (ICHAT

2024 present a rich repository of cutting edge research on the various applications of machine learning deep learning and AI in cybersecurity healthcare agriculture and communication systems It highlights the revolutionary potential of data science in transforming traditional practices improving efficiency and accuracy across diverse domains and addressing complex real world challenges These proceedings contains innovative neural network models for agriculture that can predict tractor fuel consumption and optimize smart irrigation besides suggesting greenhouse automation for enhanced agricultural productivity It also provides a roadmap for IoT based monitoring systems for asthma patients and machine learning approaches for early detection of diabetes cancer and aquatic plant ailments Through an array of practical examples and comparative studies the book further highlights advancements in machine learning for enhancing palm vein authentication combating fake news keeping data safe and improving customer segmentation in e commerce The findings would be instrumental in combating critical global issues and foster a deeper understanding of the role of AI in image processing cybersecurity medical diagnostics and intelligent systems in the future This will be a highly interesting guide to researchers data scientists and practicing professionals in the fields of artificial intelligence machine learning and cybersecurity It will also be of interest to healthcare professionals agricultural scientists and technology enthusiasts in fostering global collaborations exploring future challenges and opportunities and introducing state of the art technologies to streamline processes
