administrators professionals researchers academicians and more AI for Critical Interculturality Fred Dervin, 2025-09-30 Provocative interdisciplinary and daringly critical AI for Critical Interculturality doesn't spoon-feed ready-made answers but rather inspires readers to think, question, and interrogate interculturality alongside AI. In a world where AI is often feared as a threat to human intelligence and creativity, the book flips the script by positioning AI as a valuable partner in the study of interculturality as both a scientific and educational notion. How could AI help us dismantle biases, interrogate knowledge production, dissemination, and foster deeper self-reflexivity in the broad field of Intercultural Communication Education and Research? What happens when we treat AI not as a passive tool but as an active interlocutor, one that mirrors our ideological blind spots and pushes us toward sharper criticality and reflexivity? Through rich theoretical and conceptual insights, real-world cases, and interactive activities, this book equips readers to unmask ideologies in AI-generated knowledge about interculturality, leverage AI as a mirror to expose and confront personal and systemic biases, consider some language stratagems to disrupt linguistic norms in human-AI dialogue. More importantly, the author asks us to forge an ethical and non-utilitarian partnership with AI. This boundary-shattering work invites students, educators, and researchers of interculturality to envision and co-create the future of intercultural studies. *Learning and Collaboration Technologies* Panayiotis
