

LIVING ENVIRONMENT REVIEW

TOPIC 1: SIMILARITIES AND DIFFERENCES AMONG LIVING THINGS (Standard 4: Key Idea 1)

1. Which two organ systems provide materials required for the human body to produce ATP?

- (1) reproductive and excretory
- (2) digestive and respiratory
- (3) respiratory and immune
- (4) digestive and reproductive

2. Some human body cells are shown in the diagrams below:

Cells from skin

Blood cells

Cells from lining of bladder

Cells from lining of trachea

These groups of cells represent different

- (1) tissues in which similar cells function together
- (2) organs that help to carry out a specific life activity
- (3) systems that are responsible for a specific life activity
- (4) organelles that carry out different functions

3. Plants in areas with short growing seasons often have more chloroplasts in their cells than plants in areas with longer growing seasons. Compared to plants in areas with longer growing seasons, plants in areas with shorter growing seasons most likely

- (1) make and store food more quickly
- (2) have a higher rate of protein metabolism
- (3) grow taller
- (4) have a different method of respiration

4. An established ecosystem may remain stable over hundreds of years because

- (1) species interdependence is absent
- (2) there is a lack of variety in the species
- (3) no competition exists between the species
- (4) there are natural checks on species

5. When organisms break the bonds of organic compounds, the organisms can

- (1) use the smaller molecules to plug the gaps in the cell membrane to slow diffusion
- (2) use the energy obtained to digest molecules produced by respiration that uses oxygen
- (3) obtain energy or reassemble the resulting materials to form different compounds
- (4) excrete smaller amounts of solid waste materials during vigorous exercise

6. The diagram to the right represents a food web.

The arrows only point away from "Grasses, shrubs" and not toward them. State one biological reason that this is so. [1]

Base your answers to questions 7 through 9 on the diagrams to the right of two cells, X and Y, and on your knowledge of biology.

7. Select one lettered organelle and write the letter of that organelle in the space below. Identify the organelle you selected.

Reading Comprehension and Skills, Grade 4, 2014-03-15 Reading Comprehension and Skills for fourth grade is designed to help students develop a strong foundation of reading basics so that they will become competent readers who can advance to more challenging texts. It includes engaging passages and stories about a variety of subjects to appeal to all readers. The book also encourages vocabulary development and reinforces reading comprehension through leveled activity pages that target each student's individual needs for support. Kelley Wingate's Reading Comprehension and Skills series is the perfect choice for both teachers and parents. This valuable reading and comprehension skills practice book provides nearly 100 reproducible pages of exciting activities, 96 durable flash cards and a motivating award certificate. The differentiated activity pages give students the practice they need at a level that is perfect to help them master basic reading comprehension skills necessary to succeed and are great for use at both school and home. Life Span Human Development Carol K. Sigelman, Linda De George, Kimberley Cunial, Elizabeth A. Rider, 2018-09-01 The third edition of *Life Span Human Development* helps students gain a deeper understanding of the many interacting forces affecting development from infancy childhood adolescence and adulthood It includes local multicultural and indigenous issues and perspectives local research in development regionally relevant statistical information and National guidelines on health Taking a unique integrated topical and chronological approach each chapter focuses on a domain of development such as physical growth cognition or personality and traces developmental trends and influences in that domain from infancy to old age Within each chapter you will find sections on four life stages infancy childhood adolescence and adulthood This distinctive organisation enables students to comprehend the processes of transformation that occur in key areas of human development This text also includes a MindTap course offering with a strong suite of resources including videos and the chronological sections within the text can be easily customised to suit academic and student needs
