The Cold War Begins, 1945–1960

STARTUP QUESTION - Step into the Place:

Read and discuss the primary sources on pages 394-395

How do the United States and the Soviet Union each seem to be interpreting the intentions of the other nation?

US perspective -> The driving force behind the imperialism camp is the USA. The cardinal purpose of the imperialism camp is to strengthen imperialism, to hatch a new imperialism war, to combat socialism and democracy, and to support the reactionary and antidemocratic profascist regimes.

USSR perspective -> The USSR still believes in antagonistic capitalist encirclement with which in the long run there can be no permanent peaceful existence.

Lesson 1 The Origins of the Cold War

I. Building a New World

A. In July of 1944, President Roosevelt invited world leaders to Bretton Woods, NH, with the purpose of organizing the world's postwar economic systems. At the conference leaders created two key institutions: the **World Bank**, which lends money to weaker nations, and the **International Monetary Fund (IMF)** which helps nations with trade deficits (import more than they export).

B. Also in 1944 delegates from 39 nations met in the city of **Washington DC** to discuss a new organization called the **United Nations (UN)**. This organization would have a **General Assembly** of member nations and also a **Security Council** of eleven members.

C. When the Soviet Union liberated **Poland** in 1944, they encouraged the establishment of a **Communist Government** government. The pre-war government had fled to **Britain**. Churchill and Roosevelt agreed to **recognize the government** if members of the pre-war government were included and that **two elections** be held as soon as possible.

D. The leaders issued the Declaration of Liberated Europe that asserted all nations have the right to **choose government**.

E. The Allies divided Germany into **four** zones. Each one would be controlled by one Allied nation. They also insisted Germany pay **heavy reparations** for the war.

F. Tension between the United States and the Soviet Union led to the **Cold War**. The Soviets believed in a **communist** economic system. U.S. leaders believed that an **enterprise** system was the key to peace.

II. Truman Takes Control

A. In July 1945 Truman and Stalin met at the **Potsdam Conference**. Truman believed **an industry** was crucial for Germany, while the Soviet Union believed it needed **reparations** from Germany.

B. The Soviets refused to uphold the Declaration of Liberated Europe (DLE). The countries of Eastern Europe would set up **Communist** governments and came to be known as **satellite nations**. Churchill later described it as an **iron curtain** falling across Eastern Europe.

Teaching American History in a Global Context Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students understanding of American history It includes a wide range of materials from scholarly articles and reports to original syllabi

and ready to use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view. The contributors include well known American history scholars as well as gifted classroom teachers and the book's emphasis on immigration, race, and gender points to ways for teachers to integrate international and multicultural education. *America in the World* and *The World in America* in their courses. The book also includes a *Views from Abroad* section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants. A comprehensive annotated guide directs teachers to additional print and online resources.

Russia's Long Twentieth Century Choi Chatterjee, Deborah A. Field, Lisa A. Kirschenbaum, 2025-08-01. Covering the sweep of Russian history from empire to Soviet Union to post-Soviet state, this new edition of *Russia's Long Twentieth Century* is an accessible textbook that encourages students to start a lively conversation with Russia's storied past. Chronologically organized, the book moves beyond the traditional Cold War framework, situating Russian history within world history. It covers topics including state power, political ideology, economic change, and foreign policy, highlighting the perspectives of ordinary people and exploring the impacts of race, ethnicity, nationality, gender, and generation on historical experience. Taking an inquiry-based approach, the authors show how scholars diverge sharply in their understanding of key events, historical processes, and personalities. Each chapter contains a selection of primary sources and discussion questions, engaging with the voices and experiences of diverse Soviet citizens and familiarizing students with the techniques of source criticism. The second edition features expanded coverage of the non-Russian regions of the Russian empire and the Soviet Union, adding new sections on Ukraine in particular. To help students navigate the book, the new edition also includes a timeline of key events and people and a glossary. With a variety of learning tools, maps, and images, this volume is an essential introduction to twentieth-century Russian history.

Teaching Recent Global History Diana B. Turk, Laura J. Dull, Robert Cohen, Michael R. Stoll, 2014-03-05. *Teaching Recent Global History* explores innovative ways to teach world history beginning with the early 20th century. The authors' unique approach unites historians, social studies teachers, and educational curriculum specialists to offer historically rich, pedagogically innovative, and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history. Highlighting the best scholarship for each major continent, the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students. Each of the eight main chapters highlights a particularly important event or theme, which is then complemented by a detailed discussion of a particular methodological approach. Key features include: An overarching narrative that helps readers address historical arguments; Relevant primary documents or artifacts plus a discussion of a particular historical method well suited to teaching about them; Lesson plans suitable for both middle and secondary level classrooms; Document-based questions and short bibliographies for further research on the topic. This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students.
