Meaningful Inconsistencies Neriko Musha Doerr,2009-07-01 School differentiates students and provides differential access to various human and material resources along a range of axes from elected subjects and academic achievement to ethnicity age gender or the language they speak These categorizations affected throughout the world by neoliberal reforms that prioritize market forces in transforming educational institutions are especially stark in societies that recognize their bi or multicultural makeup through bilingual education A small town in Aotearoa New Zealand with its contemporary shift toward official biculturalism and extensive free marketization of schooling is a prime example Set in the microcosm of a secondary school with a bilingual program this important volume closely examines not only the implications of categorizing individuals in ethnic terms in their everyday life but also the shapes and meaning of education within the discourse of academic achievement It is an essential resource for those interested in bilingual education and its effects on the formations of subjectivities ethnic relations and nationhood

Knowledge Based Radar Detection, Tracking and Classification Fulvio Gini,Muralidhar Rangaswamy,2008-07-31 Discover the technology

for the next generation of radar systems Here is the first book that brings together the key concepts essential for the application of Knowledge Based Systems KBS to radar detection tracking classification and scheduling The book highlights the latest advances in both KBS and radar signal and data processing presenting a range of perspectives and innovative results that have set the stage for the next generation of adaptive radar systems The book begins with a chapter introducing the concept of Knowledge Based KB radar The remaining nine chapters focus on current developments and recent applications of KB concepts to specific radar functions Among the key topics explored are Fundamentals of relevant KB techniques KB solutions as they apply to the general radar problem KBS applications for the constant false alarm rate processor KB control for space time adaptive processing KB techniques applied to existing radar systems Integrated end to end radar signals Data processing with overarching KB control All chapters are self contained enabling readers to focus on those topics of greatest interest Each one begins with introductory remarks moves on to detailed discussions and analysis and ends with a list of references Throughout the presentation the authors offer examples of how KBS works and how it can dramatically improve radar performance and capability Moreover the authors forecast the impact of KB technology on future systems including important civilian military and homeland defense applications With chapters contributed by leading international researchers and pioneers in the field this text is recommended for both students and professionals in radar and sonar detection tracking and classification and radar resource management

Mathematical Knowledge in Teaching Tim Rowland,Kenneth Ruthven,2011-01-06 The quality of primary and secondary school mathematics teaching is generally agreed to depend crucially on the subject related knowledge of the teacher However there is increasing recognition that effective teaching calls for distinctive forms of subject related knowledge and thinking Thus established ways of conceptualizing developing and assessing mathematical knowledge for teaching may be less than adequate These are important issues for policy and practice because of longstanding difficulties in recruiting teachers who are confident and conventionally well qualified in mathematics and because of rising concern that teaching of the subject has not adapted sufficiently The issues to be examined in Mathematical Knowledge in Teaching are of considerable significance in addressing global aspirations to raise standards of teaching and learning in mathematics by developing more effective approaches to characterizing assessing and developing mathematical knowledge for teaching

Innovative Computing Vol 1 - Emerging Topics in Artificial Intelligence Jason C. Hung,Jia-Wei Chang,Yan Pei,2023-04-30 This book comprises select peer reviewed proceedings of the 6th International Conference on Innovative Computing IC 2023 The contents focus on communication networks business intelligence and knowledge management web intelligence and fields related to the development of information technology The chapters include contributions on various topics such as databases and data mining networking and communications web and Internet of Things embedded systems soft computing social network analysis security and privacy optical communication and ubiquitous pervasive computing This volume will serve as a comprehensive overview of the latest advances in information technology for those working as researchers in both academia and industry **Classroom Data Tracking, Grade K** ,2016-06-06 Classroom Data Tracking for kindergarten is a 160 page customizable resource that will transform how you track data and set goals in your classroom The book features tracking sheets that cover skills such as addition subtraction shapes fact fluency informational reading decoding and more Take charge of data tracking with a product that simplifies the process The Classroom Data Tracking series for kindergarten to grade 5 provides the tools to successfully assess and track academic growth These books feature reproducible pages that focus on standards based ELA and math concepts Each title includes crosswalks for every anchor and an example for every reproducible With the help of this series you ll save time while your students master skills The Secrets of College Success Lynn F. Jacobs,Jeremy S. Hyman,2010-06-17 If you re currently a college student or plan on being one you need to check out this book Written by award winning professors Lynn Jacobs and Jeremy Hyman it s loaded with insider information that only

professors know but few are willing to reveal The over 600 tips in this book will show you How to pick good courses and avoid bad professors How to develop college level skills and habits that ll put you ahead of the pack How to get through the freshman comp math language and lab science requirements in one try How to figure out what s going to be on the tests and what professors are looking for in papers and presentations How to pick a major you ll really like and be good at How to get the edge for graduate school or the inside track to a really good job And much more The tips are quick and easy to use and the advice is friendly and supportive It s as if you had your own personal professor guiding you on the path to college success

Resources in Education ,1998 Ventures Level 4 Teacher's Edition with Assessment Audio CD/CD-ROM
