Silverman,1985 KEY BENEFIT Almost all of the 60 000 speech language pathologists and audiologists in the United States now have to be able to document convincingly the positive impact of intervention on their clients if they are to be competitive for third party funding Most are not familiar with the research methodologies needed to do it in a way that funding agencies are highly likely to regard as being scientific objective competent and valid This book focuses on conducting and consuming clinical research By not assuming any prior knowledge of statistics this book teaches how to interpret and critically evaluate the data analyses and conclusions of studies in which statistics are used It also summarizes the legal and ethical aspects of clinical research Additionally the widespread availability of software for computing statistics by issuing a command or two has resulted in a shift in emphasis from knowing how to compute statistics to knowing when to use the various statistics and how to appropriately interpret them This book reflects this change in emphasis Written as a professional book for speech language pathologists and audiologists it will enable them to document the impacts of intervention on their clients in ways that medical insurance programs and public school administrators are likely to regard as being both scientific and valid *Embrace the Moment* Sharon Leitheiser,2011-12 *Embrace the Moment* is a book about an elementary teacher who had a hemorrhagic stroke at the age of 49 and lived to tell her story It was August 11 1996 the day Sharon Leitheiser s life came to a screeching halt The pain in her brain came so fast she didn t feel it coming before her lights went out She awoke in the hospital after brain surgery and was left with aphasia a word finding problem resulting from her stroke and short term memory problems *Embrace the Moment* is not only a story about her slow recovery from the stroke and its aftermath of depression but also a story about her family who was in crisis due to alcoholism and drug dependency It is a story about spiritual growth and commitment to family and what she learned along the way Sharon was born and raised in Great Falls Montana and graduated from Montana State University She taught for many years in Geraldine a farming community outside of Great Falls before she and her family moved to the Seattle Washington area where she began teaching again She retired after her stroke but did not retire from life and still continues to inspire people with her writings and her story She believes in making your own dreams come true Palin
