Study Guide for Pharmacology and the Nursing Process - E-Book Linda Lane Lilley,Shelly Rainforth Collins,Julie S.

Snyder, 2026-03-15 Get more out of Lilley's Pharmacology and the Nursing Process 11th Edition with this practical study guide. Matching the chapters in the textbook, this workbook helps you review and understand the key terms, key concepts, and pharmacology that nurses need to know. Exercises include NCLEX Examination style review questions, critical thinking, and application questions and case studies. It provides the review and practice you need to master the nursing process and nursing pharmacology. Study guide chapters correspond to each chapter in the textbook to help you review and understand the key terms, key concepts, and pharmacology and nursing content you need to know. Learning exercises include NCLEX style review questions, matching questions, clinical judgment, and application questions and clinical judgment case studies. Application-based NCLEX style practice questions include at least one alternate item question per chapter. Focus on Prioritization features prioritization exercises in which you must evaluate a clinical scenario and answer the question: What is the nurse's best action? Overview of drug calculation concepts helps you correctly solve mathematical problems when calculating drug dosages and includes practice problems and a practice quiz. Sample drug labels provide authentic practice in preparing for drug administration. Learning strategies expand upon the unique cartoon illustrated study strategies in the textbook and offer additional information and learning tips. Answers for all questions are provided at the back of the book. UPDATED content throughout reflects the enhanced content in the 11th edition of the Lilley textbook. NEW Next Generation NCLEX Exam NGN style case studies and question types help prepare you for the NGN as you learn key pharmacology and related nursing content.
