Napoleon Sarony's Living Pictures Erin Pauwels, 2024-06-28 Napoleon Sarony was once one of the most famous names in American photography. During the Gilded Age, his grand portrait studio with its one-story high marquee reproducing the photographer's signature in golden letters was a New York City landmark visited by celebrities such as Oscar Wilde, Sarah Bernhardt, and Mark Twain. Sarony's story represents a central chapter in the history of photography. Napoleon Sarony's *Living Pictures* documents Sarony's career as New York City's premier portrait photographer and details a moment when the birth of celebrity culture and growth of mass media helped promote popular acceptance of photography as fine art. Sarony's larger-than-life public image was crucial to demonstrating photography's creative potential. At a time when photographers were commonly regarded as straitlaced entrepreneurs or technicians, Sarony circulated self-portraits in outlandish costumes to assert himself as a flamboyantly eccentric artist. These photographic performances forged an authoritative link between the so-called father of artistic photography in America and the stylish celebrity portraits that emerged from his studio by the tens of thousands. Reconstructing Sarony's biography and bringing to light never-before-published portraits, Erin Pauwels provides an illuminating view of how one artist's quest for creative recognition fueled the rise of celebrity culture and artistic photography in the United States. This book will appeal to historians of photography and nineteenth-century American visual culture as well as anyone interested in this master of the medium of photography and his celebrity subjects. **Traffic**

Safety Vulnerability Information Platform (TS-VIP) for Highways in Mountainous Areas Using Geospatial Multimedia Technology, 2008 An integrated mobile testing study that utilized a large truck equipped with various testing equipment was conducted on Interstate I 70 in Colorado. The field study integrated wind measurement, vehicle dynamic monitoring, and geospatial multimedia technology on a real-time and synchronized basis. Essential multi-type data was collected in both time and spatial domains for further investigations of wind characterizations and the safety performance of large trucks under crosswinds in complicated topographic conditions and other environmental conditions. Environmental geospatial multimedia information for transportation safety has become a very important information source with data integration from both DOT and drivers' perspective in terms of planning precise decision making and management. Drivers can benefit from the geospatial multimedia information of road environments in terms of driving safety and confidence. Based on the field testing results, a framework for a traffic vulnerable information system was developed, and the geospatial multimedia technology was integrated with environmental condition and just emerged in transportation engineering field and Web-based platform to assist transportation management and drivers. This study implemented Video Mapping System (VMS) technology along the I 70 mountain corridor, measured wind speeds in three dimensions and accelerations in two dimensions, and developed a Web-based geospatial multimedia database with embedded wind speeds and accelerations as environmental-related georeferenced vulnerable traffic information at selected feature points in the testing route. World ,1915 Unseemly Pictures Helen Pierce,2008 This engaging book is the first full study of the satirical print in seventeenth century England from the rule of James I to the Regicide It considers graphic satire both as a particular pictorial category within the wider medium of print and as a vehicle for political agitation criticism and debate Helen Pierce demonstrates that graphic satire formed an integral part of a wider culture of political propaganda and critique during this period and she presents many witty and satirical prints in the context of such related media as manuscript verses ballads pamphlets and plays She also challenges the commonly held notion that a visual iconography of politics and satire in England originated during the 1640s tracing the roots of this iconography back into native and European graphic cultures and traditions Published for the Paul Mellon Centre for Studies in British Art *Framing a Lost City* Amy Cox Hall,2017-11-22 An engaging study of Machu Picchu s transformation from ruin to World Heritage site and the role a National Geographic photo feature played Latin American Research Review When Hiram Bingham a historian from Yale University first saw Machu Picchu in 1911 it was a ruin obscured by overgrowth whose terraces were farmed by a few families A century later Machu Picchu is a UNESCO World Heritage site visited by more than a million tourists annually This remarkable transformation began with the photographs that accompanied Bingham s article were published in National Geographic magazine which depicted Machu Picchu as a lost city discovered Focusing on the practices technologies and materializations of Bingham s three expeditions to Peru in the first decade of the twentieth century this book makes a convincing case that visualization particularly through the camera played a decisive role in positioning Machu Picchu as both a scientific discovery and a Peruvian heritage site Amy Cox Hall argues that while Bingham s expeditions relied on the labor knowledge and support of Peruvian elites intellectuals and peasants the practice of scientific witnessing and photography specifically converted Machu Picchu into a cultural artifact fashioned from a distinct way of seeing Drawing on science and technology studies she situates letter writing artifact collecting and photography as important expeditionary practices that helped shape the way we understand Machu Picchu today Cox Hall also demonstrates that the photographic evidence was unstable and as images circulated worldwide the lost city took on different meanings especially in Peru which came to view the site as one of national patrimony in need of protection from expeditions such as Bingham s **National RV Trader** , **The New York Times Index** ,2002 **Australia's Wild Weather** Mark Tredinnick,National Library of Australia,2011 Weather is the oldest story in the world one we want to keep on telling each other when we meet as though it were part of who we are a story that wants to keep on telling itself and affecting us whether we like it or not We breathe it in we see embodied in it our fears and desires it falls on our heads And we d better take care of it our lives are in its hands Marrying photographs from the collection of the National Library of Australia with an evocative and contemplative essay by poet Mark Tredinnick Australia s Wild Weather is a lyric field guide to Australia s climate Tredinnick considers what it means to be living at time when weather is no longer small talk it is most of the news Beautifully written the author contemplates what weather means to us
