Cold War Art Worlds Simone Wille, 2025-11-05 During the Cold War the Central European capital city Prague along with other previously less noticed locations in the polarised post war world emerged as a key site where an art world of particular importance for artists from South Asia developed By emphasising cultural mobility as a catalyst for exchange and network building this book challenges and complicates assumptions about Cold War binaries of East and West and the polarisation between so called totalitarian regimes and free cultures Positioning Prague as a nexus where South Asian modernisms intersected with multiple peoples histories and ideologies in the post World War II era it offers a narrative of decolonisation that rejected rigid systemic alignment in favour of participation across blocs by prioritising migratory aesthetics over nationalist parochialism Well researched and rich in archival materials this book proposes new ways of writing art histories and makes a significant contribution to both Cold War studies and critical global modernism studies

The Transcultural Critic: Sabahattin Ali and Beyond Seyda Ozil, Michael Hofmann, Jens Peter Laut, Yasemin Dayioglu-Yücel, Cornelia Zierau, 2017 The central theme of this volume is the work of Sabahattin Ali the Turkish author and translator from German into Turkish who achieved posthumous success with his novel *Kırk Mantolu Madonna* The Madonna in the Fur Coat Our contributors analyze this novel which takes place largely in Germany and several other texts by Ali in the context of world literature cultural translation and intertextuality Their articles go far beyond the intercultural love affair that has typically dominated the discussion of Madonna Other articles consider Zafer enocak's essay collection *Deutschsein* and transcultural learning through picture books An interview with Selim Zdo rounds out the issue

Creative Life Bob Ostertag, 2024-03-18 In this eloquent and passionate volume Bob Ostertag explores the common ground and points of friction among music creativity politics culture and technology In terrain ranging from the guerrilla underground in El Salvador's civil war to the drag queen underground in San Francisco and New York these essays combine journalism and autobiography to explore fundamental questions of what art is and what role it can occupy in a violent and fragmented world a world in which daily events compromise the universality toward which art strives Drawing on his intimate engagement with political conflict in Latin America and the Balkans Ostertag identifies an art of insurgent politics that struggles to expand the parameters of the physical and social world He also discusses his innovative collaborations with major modern performers filmmakers and artists around the world Part memoir part journalism and part aesthetic manifesto *Creative Life* is a dazzling

With Faith in God and Heart and Mind Maurice J. Hobson, Eddie R. Cole, Jim C. Harper, Derrick P. Alridge, 2025-05 When Edgar A Love Oscar J Cooper Frank Coleman and Ernest Everett Just founded the historically Black fraternity Omega Psi Phi on November 17 1911 at Howard University they could not have known how great of an impact their organization would have on American life Over the 110 years that followed its members led colleges and universities served in prominent military roles made innumerable contributions to education civic society science and medicine and at least one campaigned for the US presidency This book offers a comprehensive authoritative history of the fraternity emphasizing its vital role through multiple eras of the Black freedom struggle The authors address both the individual work of its membership which has included such figures as Carter G Woodson Bayard Rustin Roy Wilkins James L Farmer Jr Benjamin Elijah Mays James Clyburn Jesse Jackson and Benjamin Crump and the collective efforts of the fraternity s leadership to encourage its general membership to contribute to the struggle in concrete ways over the years The result is a book that uniquely connects the 1910s with the present showing the ongoing power of a Black fraternal organization to channel its members toward social reform

The OIC, the UN, and Counter-Terrorism Law-Making Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet

generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter terrorism enterprise over many decades and which accelerated markedly after 9 11 The scope of the book is ambitious its subject matter is complex and its sources are many and diverse Dr Samuel has deployed an appropriate theoretical and empirical methodology harnessed an intricate knowledge of the field and brought a balanced judgement to bear to bring these issues to life
