John Henry Walsh,1869 *A History of Ancient Rome in Twelve Coins* Gareth Harney,2025-10-21 Hold the glory and infamy of ancient Rome in the palm of your hand with this brilliant combination of history and storytelling Conn Iggulden author of the Emperor series as it explores history's greatest superpower as told through humanity's most universal object the coin When Gareth Harney was first given a Roman coin as a child he became entranced by its beauty and its unique ability to connect us with the past He soon learned that the Romans saw coins as far more than just currency these were metal canvases on which they immortalized their sacred gods mighty emperors towering monuments and brutal battles of conquest Revealed in those intricate designs struck in gold silver and bronze was the epic story of the Roman Empire Now with his novel and highly readable Philip Matyszak author of *The Blood Red Sunset* voice and engaging research Harney traces ancient Rome's rise from a few huts on an Italian hilltop to an all conquering empire spanning three continents through the fascinating lives of twelve remarkable coins A unique and enthralling combination of history and expert storytelling Emma Southon author of *A History of the Roman Empire in 21 Women* for all history buffs *Nature in the Middle Ages and the Early Modern Times* Albrecht Classen,2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches **The Whole Story** John E.
