Aliens and Englishness in Elizabethan Drama Lloyd Edward Kermode, 2009-03-19 Covering a wide variety of plays from 1550-1600 including Shakespeare's second tetralogy, this book explores moral, historical, and comic plays as contributions to Elizabethan debates on Anglo foreign relations in England. The economic, social, religious, and political issues that arose from inter-British contact and Continental immigration into England are reinvented and rehearsed on the public stage. Kermode uncovers two broad alien stages in the drama: distinctive but overlapping processes by which the alien was used to posit ideas and ideals of Englishness. Many studies of English national identity pit Englishness against the alien other so that the native self and the alien settle into antithetical positions. In contrast, *Aliens and Englishness* reads a body of plays that represent Englishness as a state of ideological, invented superiority, paradoxically stable in its constant changeability and brought into being by incorporating and eventually accepting and even celebrating rather than rejecting the alien.

God vs Alien Subhash Chandra, 2021-05-19 *God vs Alien* is all about finding the hidden meaning in ancient monuments, texts, Vedas, and holy books. The hidden signs in our religion and holy books are kept secret from the common people; the truth is not what we see and hear. The lost civilizations of Mayans and Egypt from the past, the concept of time travel and teleportation, how could the modern technology be influenced by the Ancient technology, the presence of human race in entire universe, the future of earth, and the incidents of time travel, the way to immortality. And one of the most important question: Are We Alone Really Alone? In other words, this book is an initiative to decode the hidden signs of holy books and signs from human history.
