The authors explore a diverse range of communities, from chronic pain sufferers to nursery staff, to present a detailed framework for the analysis of figurative language. The reader is shown how figurative language is used between members of these communities to construct their own world view and how this can change with a shift in perspective. Figurative language is shown to be pervasive and inescapable, but it is also suggested that it varies significantly across genres.

Coat of Many Cultures Michael D. McGaha, 1997 The biblical and Qur'anic story of Joseph was an important element of the cultural heritage shared by Jews, Muslims, and Christians in medieval Spain. The great themes that legend embodies: sibling rivalry,

resulting in betrayal revenge and ultimate reconciliation the triumph of honor and chastity over sexual temptation and the Cinderella like rise of a member of a despised minority to a position of almost unimaginable power and influence led all three groups to cherish the story The story of Joseph offers us a unique opportunity to examine the interactions of Jews Muslims and Christians in medieval Renaissance Spain Each of these ethnic and religious groups developed new interpretations of the story dictated by the historical circumstances of a particular time and place yet each was influenced by the versions created by the others McGaha s book presents seven works based on the biblical story Only two have been previously translated into English All of these works are unmistakably Spanish though many of them are also undeniably Jewish or Muslim They are not just antiquarian curiosities but are truly admirable literary texts
