An Uncommon Education:

Uncommon Education Samuel Nyal Henrie, 2009 *Uncommon Education* traces the evolution of Prescott College In this compelling work Samuel Henrie and others reveal what led to the inception of this special institution the philosophy behind it and a rare curriculum that includes adventure education social and ecological justice fieldwork and other hands on and unique educational opportunities Sam Henrie has made an immense contribution to higher education by chronicling this grand ongoing adventure in learning Prescott College s hands on feet in the field approach not only makes far more sense than the cattle calls that pass for education at most places but its amazing resilience and resurrection is one of the most hopeful stories for our times a true tale of how good ideas really can win if we never give up Alan Weisman Laureate Professor of Journalism University of Arizona retired Professor of Writing at Prescott College author of *The World Without Us* *Gaviotas A Village to Reinvent the World* and other works

The Conditions for Admission John Aubrey Douglass, 2007 The first comprehensive study of the admission policies and practices at U S public universities examining their social contract in light of contemporary debates over affirmative action standardized testing privatization and the influences of globalization

Expanding School Quality Through Choice: Twenty Years of Charters in Newark softcover Karen Thomas, 2018-02-15 Much has been written debated and learned about whether the intent of charter schools and their relationship to traditional public schools has been realized The goal has always been to make things better for all children and to offer parents a quality choice In the City of Newark both the quantity and quality of offerings made available to families over the past twenty years have brought progress and promise This book through the voice of various stakeholders is a chronicle of what has taken place in the City of Newark New Jersey

The American Research University from World War II to World Wide Web Charles M. Vest, 2007-06-01 Forty years after Clark Kerr coined the term multiversity the American research university has continued to evolve into a complex force for social and economic good This volume provides a unique opportunity to explore the current state of the research university system Charles M Vest one of the leading advocates for autonomy for American higher education offers a multifaceted view of the university at the beginning of a new century With a complex mission and funding structure the

university finds its international openness challenged by new security concerns and its ability to contribute to worldwide opportunity through sharing and collaboration dramatically expanded by the Internet In particular Vest addresses the need to nurture broad access to our universities and stay true to the fundamental mission of creating opportunity Monthly Catalogue, United States Public Documents ,1994 *Proceedings of the Board of Regents* University of Michigan. Board of Regents, Products Catalog National Center for Research in Vocational Education (U.S.),1992 *Enhancing Learning Environments Through Curriculum Integration* ,1993-02 The Politics of Public Education Helen M. Gunter,2018-11-28 At a time when public education and reform agendas are changing the way we approach education this book critically examines the key issues facing the public with implications for education policy makers professionals and researchers Drawing on empirical evidence gathered over 20 years Helen Gunter confronts current issues about social justice and segregation She uses Arendtian ideas to help the reader to think politically about education and how and why public services education can be reimagined for the future Monthly Catalog of United States Government Publications ,1994 **No Longer Common** Kerry A. Clark,2021-05-06 *Reform and Resistance in Schools and Classrooms* Donna E. Muncey,Patrick J. McQuillan,1996-01-01 What constitutes better schooling for today s youth In 1984 educational theorist Theodore R Sizer formulated nine Common Principles to answer this question and launched The Coalition of Essential Schools an organization of schools attempting to change their own structure curriculum pedagogy and power relations according to Sizer s Principles This important book the first comprehensive look at Coalition schools charts the course of reform at eight charter member schools Donna E Muncey and Patrick J McQuillan experts in anthropology as well as education conducted a five year ethnographic study to understand what happened in Coalition schools The authors looked at curricular and pedagogical developments how changes affected individual students teachers administrators and other school personnel and how American cultural beliefs influenced efforts to change **Home Education Bulletin** ,1899 **The View from the Helm** James J. Duderstadt,2009-03-25 Widely regarded as one of the most active and publicly engaged university presidents in modern academia Duderstadt who led the University of Michigan from 1988 to 1996 presided over a period of enormous change not only for his institution but for universities across the country His presidency was a time of growth and conflict of sweeping new affirmative action and equal opportunity programs significant financial expansion and reenergized student activism on issues from apartheid to codes of student conduct Under James Duderstadt s stewardship Michigan reaffirmed its reputation as a trailblazer among universities Part memoir part history part commentary The View from the Helm extracts general lessons from his experiences at the forefront of change in higher education offering current and future administrators a primer on academic leadership and venturing bold ideas on how higher education should be steered into the twenty first century **Crossing the Finish Line** William G. Bowen,Matthew M. Chingos,Michael McPherson,2009-09-08 Why so many of America s public university students are not graduating and what to do about it The United States has long

been a model for accessible affordable education as exemplified by the country's public universities And yet less than 60 percent of the students entering American universities today are graduating Why is this happening and what can be done Crossing the Finish Line provides the most detailed exploration ever of college completion at America's public universities This groundbreaking book sheds light on such serious issues as dropout rates linked to race gender and socioeconomic status Probing graduation rates at twenty one flagship public universities and four statewide systems of public higher education the authors focus on the progress of students in the entering class of 1999 from entry to graduation transfer or withdrawal They examine the effects of parental education family income race and gender high school grades test scores financial aid and characteristics of universities attended especially their selectivity The conclusions are compelling minority students and students from poor families have markedly lower graduation rates and take longer to earn degrees even when other variables are taken into account Noting the strong performance of transfer students and the effects of financial constraints on student retention the authors call for improved transfer and financial aid policies and suggest ways of improving the sorting processes that match students to institutions An outstanding combination of evidence and analysis Crossing the Finish Line should be read by everyone who cares about the nation's higher education system **For Profit and For Good** Iris

Yob, 2023-11-25 For Profit and For Good opens up for critical examination a sector of higher education that surprisingly is rarely scrutinized in depth the corporate institutions that have made up the fastest growing sector of US higher education in this century It explores in detail the development of one such institution Walden University from its emergence out of the social turmoil and progressive education movement of the 1960s through the succeeding decades characterized by changes on every front It looks frankly at the impact of these forces on the university's original mission and describes the university's response to them It investigates the idea of whether the resources and incentives of being for profit have changed higher education in a way that benefits not only investors but also learners their workplaces and the larger community Business models of management technological developments and changes in an ever evolving society are issues every university faces and seeing how this institution grappled with them will be instructive Fundamentally this book addresses the essential ethical question of whether the for profit sector in higher education adds value and if so what that added value might be This book will be of interest to researchers and students of the history of education alternatives in higher education the economics of education education administration reform and new developments in higher education online learning and policy studies in education It is also relevant for policy makers and other managers in edubusiness
