

Information to Examiners

1. General

The mark scheme for each question shows:

- the marks available for each part of the question
- the total marks available for the question
- the typical answer or answers which are expected
- extra information to help the Examiner make his or her judgement
- the Assessment Objectives, level of demand and specification content that each question is intended to cover.

The extra information is aligned to the appropriate answer in the left-hand part of the mark scheme and should only be applied to that item in the mark scheme.

At the beginning of a part of a question a reminder may be given, for example: where consequential marking needs to be considered in a calculation; or the answer may be on the diagram or at a different place on the script.

In general the right-hand side of the mark scheme is there to provide those extra details which confuse the left-hand side of the mark scheme and may be helpful in ensuring the marking is straightforward and consistent.

2. Conventions and understanding

- 2.1 In order to ensure that answers which cover the same point are awarded the same mark, the number of marks available for each of the following codes is given in parentheses.
- 2.2 An asterisk (*) is used to indicate that both parts of the answer are required to award the mark.
- 2.3 Alternative answers acceptable for a mark are indicated by the use of 'or'. Different parts of the mark scheme are shown by 'or' in different colours. This is indicated.
- 2.4 Any wording that is underlined is essential for the marking point to be awarded.
