Resources in Education, 2000-04 *Resources for Teaching Elementary School Science* National Science Resources Center of the National Academy of Sciences and the Smithsonian Institution, 1996-03-28 What activities might a teacher use to help children explore the life cycle of butterflies What does a science teacher need to conduct a leaf safari for students Where can children safely enjoy hands on experience with life in an estuary Selecting resources to teach elementary school science can be confusing and difficult but few decisions have greater impact on the effectiveness of science teaching Educators will find a wealth of information and expert guidance to meet this need in *Resources for Teaching Elementary School Science* A completely revised edition of the best selling resource guide *Science for Children* *Resources for Teachers* this new book is an annotated guide to hands on inquiry centered curriculum materials and sources of help in teaching science from kindergarten through sixth grade Companion volumes for middle and high school are planned The guide annotates about 350 curriculum packages describing the activities involved and what students learn Each annotation lists recommended grade levels accompanying materials and kits or suggested equipment and ordering information These 400 entries were reviewed by both educators and scientists to ensure that they are accurate and current and offer students the opportunity to Ask questions and find their own answers Experiment productively Develop patience persistence and confidence in their own ability to solve real problems The entries in the curriculum section are grouped by scientific area Life Science Earth Science Physical Science and Multidisciplinary and Applied Science and by type core materials supplementary materials and science activity books Additionally a section of references for teachers provides annotated listings of books about science and teaching directories and guides to science trade books and magazines that will help teachers enhance their students science education *Resources for Teaching Elementary School Science* also lists by region and state about 600 science centers museums and zoos where teachers can take students for interactive science experiences Annotations highlight almost 300 facilities that make significant efforts to help teachers Another section describes more than 100 organizations from which teachers can obtain more resources And a section on publishers and suppliers give names and addresses of sources for materials The guide will be invaluable to teachers principals administrators teacher trainers science curriculum specialists and advocates of hands on science teaching and it will be of interest to parent teacher organizations and parents *Getting to the Core of Writing: Essential Lessons for Every Second Grade Student* Richard Gentry, Jan McNeel, 2012-06-01 Inspire students to develop as writers in the second grade classroom with these engaging and creative writing lessons This classroom tested resource shows positive results in students writing and simplifies the planning of writing instruction It contains detailed information on how to establish and manage daily Writer s Workshop and includes consistent structured instruction to encourage students to actively participate in the writing process Specific lessons to help students develop the traits of quality writing are also included **Place-based Curriculum Design** Amy B.

Demarest,2014-10-30 Place based Curriculum Design provides pre service and practicing teachers both the rationale and tools to create and integrate meaningful place based learning experiences for students Practical classroom based curricular examples illustrate how teachers can engage the local and still be accountable to the existing demands of federal state and district mandates Coverage includes connecting the curriculum to students outside of school lives using local phenomena or issues to enhance students understanding of discipline based questions engaging in in depth explorations of local issues and events to create cross disciplinary learning experiences and creating units or sustained learning experiences aimed at engendering social and environmental renewal An on line resource www.routledge.com/9781138013469 provides supplementary materials including curricular templates tools for reflective practice and additional materials for instructors and students

Mass Market Medieval David W. Marshall,2007-04-11 Beginning in 1976 with the first issue of the journal *Studies in Medievalism* all things medieval and the concept of medievalism became a hot topic in culture studies Medievalism examines how different groups individuals or eras use and shape the image of the Middle Ages differentiating between historical knowledge of the Middle Ages and what we have made the period out to be The 13 essays in this book explore the medieval invasion of today s media and consider the various ways from film and print to websites and video games that the Middle Ages have been packaged for consumption Essays encompass diverse theoretical perspectives and are grouped loosely around distinct functions of medievalism including the exposure of recent social concerns the use of medieval images in modern political contexts and the medieval s influence on products of today s popular culture The legitimization of the study of medievalism and the effect of medievalism on the more traditional subject of medieval studies are also discussed Instructors considering this book for use in a course may request an examination copy here **George W.
