applications and discusses the potential for substituting environmentally hazardous substances with environmentally friendly and degradable components. Focusing on both the material development and production technologies, it reviews different materials as well as new production technologies and application areas. It also highlights the importance of incorporating organic materials into different composites to enable consumption of otherwise waste materials. Further, it addresses biopolymers for the food industry, e.g., edible films and coatings in food production and biodegradable materials in the automotive industry, bio fuels such as biodiesel based on organic constituents and green composites in marine applications. Environmental protection aspects related to the protection of cultural heritage and new nanoparticles such as nano zerovalent iron are also reviewed. Aimed at young researchers, professionals, chemical engineers and marine engineers, the book is the result of the joint efforts of different academic and research institutions participating in the WIMB Tempus project 543898 TEMPUS 1 2013 1 ES TEMPUS JPHES Development of Sustainable Interrelations between Education Research and Innovation at WBC Universities in Nanotechnologies and Advanced Materials where Innovation Means Business, co-funded by the European Union Tempus Program.

How to Price Effectively Utpal Dholakia, 2017-07-13 Pricing decisions are among the most important and impactful business decisions that a manager can make. How to Price Effectively: A Guide for Managers and Entrepreneurs introduces the value pricing framework, a structured, versatile and comprehensive method for making good pricing decisions and executing them. The framework weaves together the latest thinking from academic research, journals, proven best practices from the leading pricing experts and ideas from other fields such as medical decision making, consumer behavior and organizational psychology. The book discusses what a good pricing decision is, which factors you should consider when making one, the role played by each factor, costs, customer value, reference prices and the value proposition and how they work together, the importance of price execution and how to evaluate the success of pricing decisions. You will also be introduced to a set of useful and straightforward tools to implement the value pricing framework and study many examples and company case studies that illustrate its nuances. The purpose of How to Price Effectively: A Guide for Managers and Entrepreneurs is to provide you with a comprehensive practical guide to making, executing and evaluating pricing decisions.

Beyond Oil and Gas George A. Olah, Alain Goeppert, G. K. Surya Prakash, 2018-10-22 Completely revised and updated, the third edition of this bestseller discusses the concept and ongoing development of using methanol and derived dimethyl ether as a transportation fuel, energy storage medium and as a chemical raw material to replace fossil fuels. The contents have been expanded by 35% with new and up-to-date coverage on energy storage, methanol from biomass and waste products as well as on carbon dioxide capture and recycling. Written by the late Nobel laureate George Olah, Alain Goeppert and G. K. Surya Prakash, this is an inspiring read for anyone concerned with the major challenge posed by environmental problems including global warming and ocean acidification due to massive increase in fossil fuel use. The book provides a comprehensive and sustainable solution to replace fossil fuels in the long run by

chemical recycling of carbon dioxide through renewable methanol utilizing alternative energy sources such as solar wind hydro geothermal and nuclear The Methanol Economy is being progressively implemented in many parts of the world
