Winning With Risk Management Russell Walker, 2013-04-04 This book develops the notion that companies can succeed on the basis of risk management much as companies compete on efficiency costs labor location and other dimensions The reality of risk and how it impacts companies is that it is much more definite often catastrophic and looks more like a shock This is striking as a difference between firms on risk different than a marginal difference in operating efficiencies for example Competing on Risk Management requires a discipline a commitment to using information and recognizing shocks and then acting upon those to redistribute assets This book will examine how leading firms that compete on risk have done this and showcase best practices and impacts to the capital structure of firms and their organizational formation

Committee on Electronic Vehicle Controls and Unintended Acceleration,2012 TRB has released the final version of TRB Special Report 308 The Safety Promise and Challenge of Automotive Electronics Insights from Unintended Acceleration which examines how the National Highway Traffic Safety Administration NHTSA regulatory research and defect investigation programs can be strengthened to meet the safety assurance and oversight challenges arising from the expanding functionality and use of automotive electronics The report gives particular attention to the NHTSA response to consumer complaints of vehicles accelerating unintentionally and to concerns that faulty electronic systems may have been to blame The committee that produced the report found that the increasingly capable and complex electronics systems being added to automobiles present many opportunities for making driving safer but also present new demands for ensuring their safe performance These safety assurance demands pertain both to the automotive industry development and deployment of electronics systems and to the safety oversight role of NHTSA With regard to the latter the committee recommends that NHTSA give explicit consideration to the oversight challenges arising from automotive electronics and that the agency develop and articulate a long term strategy for meeting these challenges Provided by publisher *How to Buy a New Car Like You Practically Stole It!* D.
