The Internationalization of US Writing Programs Shirley K Rose, Irwin Weiser, 2018-04-02 The Internationalization of US Writing Programs illuminates the role writing programs and WPAs play in defining goals, curriculum, placement, assessment, faculty development, and instruction for international student populations. The volume offers multiple theoretical approaches to the work of writing programs and illustrates a wide range of well-planned writing program-based empirical research projects. As of 2016, over 425,000 international students were enrolled as undergraduates in US colleges and universities, part of a decade-long trend of increasing numbers of international students coming to the United States for both undergraduate and graduate degrees. Writing program administrators and writing teachers across the country are beginning to recognize this changing demographic as a useful catalyst for change in writing programs, which are tasked with preparing all students regardless of initial level of English proficiency for academic and professional writing. The Internationalization of US Writing Programs is the first collection to focus specifically on this crucial aspect of the roles and responsibilities of WPAs who are leading efforts

to provide all students on their campuses regardless of nationality or first language with competencies in writing that will serve them in the academy and beyond Contributors Jonathan Benda Michael Dedek Christiane Donahue Chris W Gallagher Kristi Girdharry Tarez Samra Graban Jennifer E Haan Paula Harrington Yu Kyung Kang Neal Lerner David S Martins Paul Kei Matsuda Heidi A McKee Libby Miles Susan Miller Cochran Matt Noonan Katherine Daily O Meara Carolina Pelaez Morales Stacey Sheriff Gail Shuck Christine M Tardy Stanley Van Horn Daniel Wilber Margaret Willard Traub Fast-Track Tax Reform Asian Development Bank,2017-10-01 The economy of Maldives faced two very challenging episodes traced to the 2004 tsunami and the 2008 2009 global financial crisis To develop alternative sources of funding and to improve services delivery the government with the help of partners like the Asian Development Bank and others succeeded in transforming the country s revenue system into a modern e enabled system for effective tax collection and development of a broader tax base Find out more about Maldives fast track approach to tax reforms which can serve as a guide for other developing countries

Larson,2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In Love in the Time of Self Publishing Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing s most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia s historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia s experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia s rise and near
