A Companion to the Philosophy of Education Randall Curren,2008-04-15 A Companion to the Philosophy of Education is a comprehensive guide

to philosophical thinking about education Offers a state of the art account of current and controversial issues in education including issues pertaining to multiculturalism special education sex education and academic freedom Written by an international team of leading experts who are directly engaged with these profound and complex educational problems Serves as an indispensable guide to the field of philosophy of education Proceedings International Technical Communications Conference,1981 *It's About Learning (and It's About Time)* Louise Stoll,Dean Fink,Lorna Earl,2005-08-18 The purpose of this book is to re orient the current agenda in education towards learning The recent emphasis has been on achieving standards through managing schools teachers and the teaching process But the real purpose of schools was is and always will be about learning In an increasingly complex diverse and unpredictable world it is necessary for schools and those working with them to refocus on learning at all levels pupils teachers leaders the organisation as a whole and all of the school s partners It s About Learning is a clear and well written discussion woven with practical examples and strategies It also includes an annotated bibliography suggesting useful follow up reading and the issues are posed as questions for reflection and discussion **Plato's Meno In Focus** Jane M. Day,2003-09-02 In one volume this book brings together a new English translation of Plato s Meno a selection of illuminating articles on themes in the dialogue published between 1965 and 1985 and an introduction setting the Meno in its historical context and opening up the key philosophical issues which the various articles discuss A glossary is provided which briefly introduces some of the key terms and indicates how they are translated The Meno is an excellent introduction to Plato and philosophy **The Dialogues of Plato** Plato,1871 Reconceptualizing Plato's Socrates at the Limit of Education James M. Magrini,2016-11-25 Bridging the gap between interpretations of Third Way Platonic scholarship and phenomenological ontological scholarship this book argues for a unique ontological hermeneutic interpretation of Plato and Plato s Socrates Reconceptualizing Plato s Socrates at the Limit of Education offers a re reading of Plato and Plato s Socrates in terms of interpreting the practice of education as care for the soul through the conceptual lenses of phenomenology philosophical hermeneutics and ontological inquiry Magrini contrasts his re reading with the views of Plato and Plato s Socrates that dominate contemporary education which for the most part emerge through the rigid and reductive categorization of Plato as both a realist and idealist in philosophical foundations texts teacher education programs This view also presents what he terms the questionable Socrates as teacher model which grounds such contemporary educational movements as the Paideia Project which claims to incorporate through a scripted curriculum with Socratic lesson plans the so called Socratic Method into the Common Core State Standards Curriculum as a technical skill that can be taught and learned as part of the students critical thinking skills After a careful reading incorporating what might be termed a Third Way of reading Plato and Plato s Socrates following scholars from the Continental tradition Magrini concludes that a so called Socratic education would be nearly impossible to achieve and enact in the current educational milieu of standardization or neo Taylorism Social Efficiency

However despite this he argues in the affirmative that there is much educators can and must learn from this non doctrinal re reading and re characterization of Plato and Plato s Socrates **International Journal of McLuhan Studies 2012-13**
Matteo Ciastellardi (ed.),2014-09-01 Education Overload From Total Surround to Pattern Recognition **Local Education Order**
Stephen Hester,D. W. Francis,2000-01-01 The studies in this book take an ethnomethodological approach to educational phenomena Ethnomethodology s concern is with the locally accomplished and situated character of social order With reference to educational phenomena this means that ethnomethodology investigates how the natural facts of educational life such as daily activities in school classrooms are produced as such in the first place rather than taking for granted the recognisability of these facts and then theorising their explanation In this sense ethnomethodological studies contrast markedly with other approaches to the study of education Each of the chapters in the book consists of a new and original study Collectively they exhibit the continuing vitality of this tradition and demonstrate ethnomethodology s special commitment to the analysis of educational phenomena as locally ordered and accomplished
