Ethics and Experiments Scott Desposato, 2015-12-22 For most of political science's history discussions about professional ethics had nothing to do with human subjects Professional ethics involved integrity in the classroom fair tenure and promotion rule and the careful avoidance of plagiarism As most research was observational there was little need for attention to how scholarly activities might directly affect the subjects of our work Times have changed The dramatic growth in the use of experiments in social science especially overseas is generating unexpected ethical controversies The purpose of this volume is to identify debate and propose practical solutions to the most critical of these new ethical issues A leading team of internationally distinguished political science scholars presents the first examination of the practical and ethical challenges of research with human subjects in social science and policy studies Part 1 examines contextual challenges provided by experiments conducted overseas questions of culture religion security and poverty Part 2 examines questions of legal constraints on research focusing on questions of foreign review of international experiments Part 3 tackles the critical issues in field experiments including deception and consent impact on elections and careers the boundaries of the public officials exemption and the use of partner organizations to avoid Institutional Review Board IRB review Part 4 considers strategies for the future including training and education IRB reform institutional changes and norm development

Tipping Point for Advanced Capitalism D.W. Livingstone, 2023-09-07T00:00:00Z Tipping Point for Advanced Capitalism is a pathbreaking study of the changing class makeup of the Canadian other G7 and Nordic labour forces since the 1980s documenting especially the rise of non managerial professional employees The book provides unprecedented

tracking of the links between employment classes and higher levels of class consciousness including the often hidden political consciousness of corporate capitalists as well as the extent of oppositional and revolutionary consciousness among non managerial workers The large differences exposed between class conscious capitalists and these non managerial workers on issues of poverty reduction and global warming reveal the strategic roles these key class agents play in actions to defend or transform advanced capitalism The most concerted evidence based study to bring class back into grasping the intimately linked ecological economic and political crises we now face

Teaching Innovations in Economics María del Carmen Valls Martínez, José-María Montero, 2024-10-31 This book highlights the latest technological innovations in economics education Economics as a discipline not only studies the relationship between ends and scarce means which can be used alternatively but also serves as a social science that uses historical data to predict future events a task complicated by the influence of human behavior In economics a solid theoretical foundation alone is insufficient practical application requires a deep understanding of statistics With the vast amount of information available today data processing is now performed using specialized software Consequently teaching economics demands a wide range of complex skills that have significantly evolved in recent years driven by the growing interest in educational innovation among professors and scientists further accelerated by advancements in new technologies Moreover economics education is increasingly aligned with the global concern for sustainability as emphasized in the United Nations Agenda 2030 Professors are now integrating sustainability into syllabi and teaching methodologies This book covers key topics such as Technological and innovative advancements in economics education New teaching learning theories and models in economics education The impact of digital transformation on economics education The role of artificial intelligence in economics education Addressing special educational needs in economics education Evaluation of the teaching learning process in economics Assessment of student learning in economics Development of materials and tools for economics education Final projects Undergraduate and Masters in economics Authored by leading professors and researchers in the field this book presents a collection of chapters that rigorously explore teaching innovations in economics

Borderless Africa Francis Mangeni, Andrew Mold, 2024-04-18 The African Continental Free Trade Area established in 2018 represented a monumental step forward for Africa in terms of meeting longstanding aspirations for greater economic and political integration But it has nonetheless been met with scepticism in some quarters both within the continent and beyond *Borderless Africa* makes the case for the AfCFTA in an accessible and compelling way without shying away from technical and academic debates Francis Mangeni and Andrew Mold take us on a journey through the different dimensions and implications of the AfCFTA the largest free trade zone in the world starting with its underlying economic rationale Pointing to the numerous historical examples of successful regional integration they argue that the African continent will need to take on board such lessons as the agreement is implemented They discuss too the more controversial elements of the AfCFTA including the freedom of movement protocol contending that

this should not be seen as an optional extra but as an intrinsic part of the accord Also exploring the role of external partners in the construction of an economically stronger more united Africa this fascinating study reveals how the AfCFTA is contributing to sustainable development across the continent Banking on Equality Supriti Bezbaruah,2015-03-24 It may well be surprising to say that the world should look to India as a model of gender equality India s banking sector proves the exception with several women reaching the highest positions in India s top banks including the country s largest bank Based on interviews and surveys of bank employees in India s National Capital Region this book looks at what lies behind the media rhetoric and provides a systematic analysis of patterns of and responses to gender inequality in the banking sector in India The book uncovers how gender discrimination still persists in the banking sector albeit in covert forms Through a comparison of nationalized Indian private and foreign banks the book demonstrates how the impact of laws local cultural norms and gendered workplace practices are mediated through different organizational forms in these different types of banks to create varied experiences of gender inequality The book is one of the first books to provide a thorough in depth analysis of women s employment in the Indian banking sector currently an under researched area Wonder City Lynn Ellsworth,2025-05-06 Reimagining our cities for a sustainable and human centric future In her groundbreaking book Wonder City Lynn Ellsworth delves deep into the heart of modern urban life casting a critical eye on the transformative changes sweeping through cities like New York This compelling journey into the world of urban development goes beyond the usual narrative serving as a passionate call to action that encourages readers to actively participate in shaping the future of their cities Ellsworth expertly navigates through complex themes such as affordable housing urban planning historic preservation and architecture With a focus on major cities undergoing significant transformations Wonder City offers an insightful examination of the challenges and opportunities that define contemporary urban life At the core of this engaging narrative is a striking critique of the real estate industry s influence over urban landscapes Ellsworth reveals how historic and culturally rich urban settings are increasingly being overshadowed by the rise of impersonal glass towers a trend she argues is driven by the industry s grip on politicians and technocrats This analysis is both eye opening and unsettling shedding light on the forces reshaping our urban environments Wonder City is more than a critique however Ellsworth provides a pragmatic blueprint for revitalizing urban spaces She champions the need for affordable housing sustainable urban planning and architecture that respects and enhances the human experience Her arguments challenge the prevailing economic theories behind housing supply and question the architectural ideologies that often justify the demolition of historic urban assets This book is an essential read for urban planners policymakers and anyone interested in the future of urban living Ellsworth s clear accessible insights into complex issues make Wonder City a vital contribution to the discourse on urban development appealing to a broad audience that cares about the dynamics and future of city life **Weak Strongman** Timothy Frye,2022-09-27 Looking beyond Putin to understand how today s Russia actually works Media and public discussion tends to

understand Russian politics as a direct reflection of Vladimir Putin's seeming omnipotence or Russia's unique history and culture. Yet Russia is remarkably similar to other autocracies and recognizing this illuminates the inherent limits to Putin's power. *Weak Strongman* challenges the conventional wisdom about Putin's Russia, highlighting the difficult trade-offs that confront the Kremlin on issues ranging from election fraud and repression to propaganda and foreign policy. Drawing on three decades of his own on-the-ground experience and research as well as insights from a new generation of social scientists that have received little attention outside academia, Timothy Frye reveals how much we overlook about today's Russia when we focus solely on Putin or Russian exceptionalism. Frye brings a new understanding to a host of crucial questions: How popular is Putin? Is Russian propaganda effective? Why are relations with the West so fraught? Can Russian cyber warriors really swing foreign elections? In answering these and other questions, Frye offers a highly accessible reassessment of Russian politics that highlights the challenges of governing Russia and the nature of modern autocracy. Rich in personal anecdotes and cutting-edge social science, *Weak Strongman* offers the best evidence available about how Russia actually works.

Innovative Computing, Optimization and Its Applications Ivan Zelinka, Pandian Vasant, Vo Hoang Duy, Tran Trong Dao, 2017-11-20. This book presents the latest research of the field of optimization modeling and algorithms, discussing the real-world application problems associated with new innovative methodologies. The requirements and demands of problem solving have been increasing exponentially, and new computer science and engineering technologies have reduced the scope of data coverage worldwide. The recent advances in information communication technology (ICT) have contributed to reducing the gaps in the coverage of domains around the globe. The book is a valuable reference work for researchers in the fields of computer science and engineering, with a particular focus on modeling, simulation, and optimization, as well as for postgraduates, managers, economists, and decision makers.

From Consent to Coercion Bryan Evans, Carlo Fanelli, Leo Panitch, Donald Swartz, 2023-02-27. *From Consent to Coercion* examines the increasing assault against trade union rights and freedoms in Canada by federal and provincial governments. Centring the struggles of Canadian unionized workers, this book explores the diminution of the welfare state and the impacts that this erosion has had on broader working class rights and standards of living. The fourth edition witnesses the passing of an era of free collective bargaining in Canada, an era in which the state and capital relied on obtaining the consent of workers and unions to act as subordinates in Canada's capitalist democracy. It looks at how the last twenty years have marked a return to a more open reliance of the state and capital on coercion, on force, and on fear to secure that subordination. *From Consent to Coercion* considers this conjuncture in the Canadian political economy amid growing precarity, poverty, and polarization in an otherwise indeterminate period of austerity. This important edition calls attention to the urgent task of rebuilding and renewing socialist politics of thinking ambitiously and meeting new challenges with unique solutions to the left of social democracy.

Poverty Narratives and Power Paradoxes in International Trade Negotiations and Beyond Amrita Narlikar, 2020-05-07. Poverty narratives have

become an unprecedented source of empowerment Yet indiscriminate misuse risks devastating repercussions for the weakest members of society

The Public Wealth of Cities Dag Detter, Stefan Folster, 2017-07-18 How to leverage existing resources to meet the current and future needs of cities Crumbling streets and bridges Poorly performing schools and inadequate social services These are common complaints in cities which too often struggle just to keep the lights on much less make the long term investments necessary for future generations It doesn't have to be this way This book by two internationally recognized experts in public finance describes a new way of restoring economic vitality and financial stability to cities using steps that already have been proven remarkably successful The key is unlocking social human and economic wealth that cities already own but is out of sight or hidden A focus on existing public wealth helps to shift attention and resources from short term spending to longer term investments that can vastly raise the quality of life for many generations of urban residents A crucial first step is to understand a city's balance sheet too few cities comprehend how valuable a working tool this can be With this in hand taxpayers politicians and investors can better recognize the long term consequences of political decisions and make choices that mobilize real returns rather than rely on more taxes debt or austerity Another hidden asset is real estate Even poor cities own large swathes of poorly utilized land or they control underperforming utilities and other commercial assets Most cities could more than double their investments with smarter use of these commercial assets Managing the city's assets smartly through the authors proposed Urban Wealth Funds at arm's length from short term political influence will enable cities to ramp up much needed infrastructure investments

The End of Aspiration? Duncan Exley, 2019-05-15 Why is it getting harder to secure a job that matches our qualifications buy a home of our own and achieve financial stability Underprivileged people have always faced barriers but people from middle income families are increasingly more likely to slide down the social scale than climb up Duncan Exley former Director of the Equality Trust draws on expert research and real life experiences including from an actor a politician a billionaire entrepreneur and a surgeon to issue a wake up call to break through segregated opportunity He offers a manifesto to reboot our prospects and benefit all
