The Art of Human Rights Romola Adeola, Michael Gyan Nyarko, Adebayo Okeowo, Frans Viljoen, 2020-03-24 This book highlights the use of art in human rights specifically within Africa. It advances an innovative pattern of thinking that explores the intersection between art and human rights law. In recent years art has become an important tool for engagement on several human rights issues. In view of its potency and yet potential to be a danger when misused this book seeks to articulate the use of arts in the human rights discourse in its different forms. Chapters cover how music, photography, literature, photojournalism, soap opera, commemorations, sculpting and theatre can be used as an expression of human rights. This book demonstrates how arts have become a formidable expression of thoughts and a means of articulating reality in a form that simplifies truth and congregates resolve to advance change. Avant, 2005-07-25 The legitimate use of force is generally presumed to be the realm of the state. However the flourishing role of the private sector in security over the last twenty years has brought this into question. In this book Deborah Avant examines the privatization of security and its impact on the control of force. She describes the growth of private security companies, explains how the industry works and describes its range of customers including states, non-government organisations and commercial transnational corporations. She charts the inevitable trade offs that the market for force imposes on the states, firms and people wishing to control it, suggests a new way to think about the control of force and offers a model of institutional analysis that draws on both economic and sociological reasoning. The book contains case studies drawn from the US and Europe as well as Africa and the Middle East. The Geographical Magazine Michael Huxley, 1985-07 *The World and Darfur* Amanda F.
