Rodwin,2013-10-03 In this book Marc Rodwin examines the development of conflicts of interest in the health care systems of
the US France and Japan He shows that national differences in the organization of medical practice and the interplay of
organized medicine the market and the state give rise to variations in the type and prevalence of such conflicts and then
analyzes the strategies that each nation employs to cope with them Drawing on the experiences of these three nations
Conflicts of Interest and the Future of Medicine demonstrates that we can mitigate these problems with carefully planned

Robert Dibie,2025-01-14 The current available books and literature that shed light on health policies in many African
countries are limited *Transforming Healthcare in Africa A Comparative Analysis* by Professor Robert Dibie examines the key
players in the health system game in many African countries It explores the regulatory regimes that impact the health
systems such as the Ministry of Health It also provides few case studies of the relationship between the government the
environment and their citizens Apart from filling the gap in the healthcare policy in African literature the authors also seek to
examine the impacts of weak health policies and the inability to effectively formulate solid initiatives for capacity building
that could lead to enhanced healthcare delivery for all their citizens Thus Dibie s book provides evidence to inform scholarly
discussion on the best approaches to strengthen healthcare delivery and public health capacity in many African countries The
book also sought to answer six research questions 1 How is healthcare delivery perceived by African countries 2 How are
healthcare policies implemented in urban and rural regions or local governments in African countries 3 To what extent are
current health services delivered to respond to all citizens needs in African countries 4 What is the current capacity for rural
or local governments to effectively engage in health service delivery 5 How can citizens living in rural and urban regions be
empowered in the health development delivery system and 6 Which is the best evidence based management system adopted
to improve affordable healthcare system in many African countries It also fills the gap in the literature of health systems in

Participation in School Management** Kazuro Shibuya,2022-09-12 Nobody denies that trust in schools is key to success in
generating any educational outcomes However trust is often eroded resulting in conflicts alienation and differentiation
among school level stakeholders This book analyses school based management SBM of education through the lens of
relational trust in the context of Ghana revealing how community participation in school management leads to educational
outcomes Conducting quantitative analysis of headteacher questionnaires from public basic schools and qualitative analysis

of case study schools in the Akatsi South District of Ghana Shibuya offers critical insights into building sustainable relationships between individual households and geographical school communities He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management The research finds that trust in schools is a two way mechanism and the mutuality of expectations and obligations among stakeholders is essential if children s learning outcomes are to improve With its mixed methods approach this book will be a valuable resource for scholars in comparative education those in educational development and those interested in African contexts
