(Mrs.),2005-12-03 Conflicts of Interest and the Future of Medicine Marc A. Rodwin,2013-10-03 In this book Marc Rodwin
examines the development of conflicts of interest in the health care systems of the US France and Japan He shows that
national differences in the organization of medical practice and the interplay of organized medicine the market and the state
give rise to variations in the type and prevalence of such conflicts and then analyzes the strategies that each nation employs
to cope with them Drawing on the experiences of these three nations Conflicts of Interest and the Future of Medicine
demonstrates that we can mitigate these problems with carefully planned reform and regulation *Daily Graphic* Ransford
Tetteh,2010-02-08 Transforming Healthcare in Africa Robert Dibie,2025-01-14 The current available books and literature
that shed light on health policies in many African countries are limited Transforming Healthcare in Africa A Comparative
Analysis by Professor Robert Dibie examines the key players in the health system game in many African countries It explores
the regulatory regimes that impact the health systems such as the Ministry of Health It also provides few case studies of the
relationship between the government the environment and their citizens Apart from filling the gap in the healthcare policy in
African literature the authors also seek to examine the impacts of weak health policies and the inability to effectively
formulate solid initiatives for capacity building that could lead to enhanced healthcare delivery for all their citizens Thus
Dibie s book provides evidence to inform scholarly discussion on the best approaches to strengthen healthcare delivery and
public health capacity in many African countries The book also sought to answer six research questions 1 How is healthcare
delivery perceived by African countries 2 How are healthcare policies implemented in urban and rural regions or local
governments in African countries 3 To what extent are current health services delivered to respond to all citizens needs in
African countries 4 What is the current capacity for rural or local governments to effectively engage in health service
delivery 5 How can citizens living in rural and urban regions be empowered in the health development delivery system and 6
Which is the best evidence based management system adopted to improve affordable healthcare system in many African
countries It also fills the gap in the literature of health systems in Africa *Learning Asante Twi without tears: without

Coe,2005-11 In working to build a sense of nationhood Ghana has focused on many social engineering projects the most
meaningful and fascinating of which has been the state s effort to create a national culture through its schools As Cati Coe
reveals in *Dilemmas of Culture in African Schools* this effort has created an unusual paradox while Ghana encourages its
educators to teach about local cultural traditions those traditions are transformed as they are taught in school classrooms
The state version of culture now taught by educators has become objectified and nationalized vastly different from local

traditions Coe identifies the state's limitations in teaching cultural knowledge and discusses how Ghanaians negotiate the tensions raised by the competing visions of modernity that nationalism and Christianity have created She reveals how cultural curricula affect authority relations in local social organizations between teachers and students between Christians and national elite and between children and elders and raises several questions about educational processes state society relations the production of knowledge and the making of Ghana's citizenry
