Tom Foley R. Kenton Bird, John C. Pierce, 2023-06-23 Thomas S Foley a Democratic representative from the traditionally Republican region of eastern Washington served in Congress from 1964 to 1994 In 1989 he became the first Speaker of the US House of Representatives from a district west of Texas His thirty years of experience as a Democrat representing a Republican leaning district contributed to his strong commitment to bipartisanship and institution building His speakership came to an end when the Newt Gingrich led Republican Revolution ushered in an era of ideological polarization and fierce partisanship Tom Foley The Man in the Middle is a political biography of this important but often overlooked figure in modern congressional history While examining the story of Foley s service as Speaker of the House R Kenton Bird and John C Pierce place his career in the context of both his own life story and congressional politics in the late twentieth century What emerges is the story of a leader whose strongly held political values motivated him to sustain a vibrant and responsive House of Representatives as an institution His stance proved incompatible with the polarized and strident political environment that emerged in the early 1990s Bird and Pierce offer the first major study of Tom Foley s political career in this penetrating look at a unique and transformative congressional leader who brought politicians from both sides of the aisle together to make Congress work Foley s tenure spanned the crucial years of transition between this bipartisan ideology of governance and the politics of the twenty first century between the leadership styles of Democrats Jim Wright and Tip O Neil and that of Republican Gingrich Foley s defeat in 1994 ended this remarkable career of leading from the middle and marked a seismic transition in the landscape of American politics **Difficult Subjects** Badia Ahad-Legardy, OiYan A. Poon, 2023-07-03

Difficult Subjects Insights and Strategies for Teaching about Race Sexuality and Gender is a collection of essays from scholars across disciplines institutions and ranks that offers diverse and multi faceted approaches to teaching about subjects that prove both challenging and often uncomfortable for both the professor and the student It encourages college educators to engage in forms of practice that do not pretend that teachers and students are unaffected by world events and incidents that highlight social inequalities Readers will find the collected essays useful for identifying new approaches to taking on the difficult subjects of race gender and sexuality The book will also serve as inspiration for academics who believe that their area of study does not allow for such pedagogical inquiries to also teach in ways that address difficult subjects Contributors to this volume span a range of disciplines from criminal justice to gender studies to organic chemistry and demonstrate the productive possibilities that can emerge in college classrooms when faculty consider identity as constitutive of rather than divorced from their academic disciplines Discussions of race gender and sexuality are always hot button issues in the college classroom whether they emerge in response to a national event or tragedy or constitute the content of the class over a semester long term Even seasoned professors who specialize in these areas find it difficult to talk about identity politics in a room full of students And many professors for whom issues of racial and sexual identity is not a primary concern find it even

more challenging to raise these issues with students Offering reflections and practical guidance the book accounts for a range of challenges facing college educators and encourages faculty to teach with courage and conviction especially when it feels as though the world around us is crashing down upon our students and ourselves
